Neptune - Bunker Info tab updates

Dmitry Kisil
Senior Loss Prevention Officer

The latest bunker quality data update can be found on Neptune.

In 2022 VLSFO sulphur compliance has been steadily maintained Singapore, Fujairah and Busan. These are three main ports for VLSFO supply by volume. Bunker purchasers should be vigilant when ordering VLSFO in Rotterdam and Antwerp where samples have been failing on technical parameters and on sulphur content during first half of 2022.

Check online top ten bunkering ports. For detailed information, please contact Loss Prevention Department.

Neptune

Our innovative data portal for Members, brokers and correspondents containing a wealth of information to help with voyage planning and execution.
