Movember Update

Members of the Underwriting and Loss Prevention teams at WEST have been raising funds this month for Movember.

This has been of particular relevance to us at the moment as one of our colleagues is undergoing treatment for prostate cancer. Many thanks to all those who have sponsored the team and we are pleased to report we have so far raised just under £2,000, which is close to our target of £2,500.

Many thanks for your support to everyone who has sponsored us.
