

No. 5 2011/2012 - New Series of Safety Posters

March 2011

Dear Sirs,

NEW SERIES OF SAFETY POSTERS

In order to raise awareness of some of the common causes of shipboard accidents, the Loss Prevention department has produced a new series of safety posters entitled "Think!".

The posters use cartoons to highlight good practice and emphasise the potential consequences of not doing so. The safety message is communicated in eleven principal maritime languages.

The first four posters in the series cover the following topics:

The need to wear high visibility safety clothing while working

The importance of ensuring that exposed shafts are fitted with guards

Cleaning up spills at the earliest opportunity to prevent slips, trips and falls

Avoiding bights of rope during mooring operations

Further posters will be added to the series in due course.

Members will be

sent a complimentary set of all four posters. Further hard copies may be obtained by contacting the Loss Prevention Department or downloaded as PDF files from the Club's website.

Yours faithfully
