New ITOPF booklet on liability and compensation for ship-source oil pollution

Tony Paulson
Head of Asia & Corporate Director

ITOPF have published a new booklet on liability and compensation for ship-source oil pollution in the marine environment. This extremely helpful booklet provides an overview of the international and selected national arrangements in place, as well as background information on the different regimes.

Liability and Compensation for Ship-source Oil Pollution in the Marine Environment

AN OVERVIEW

November 2021

It has been produced with support from IMO, the Canadian Ship-source Oil Pollution Fund and the US National Pollution Funds Center, and is co-sponsored by the International Group and the IOPC Funds.
