Will Tobin joins the Club to head up its offshore business

Tom Bowsher
Group CEO

We are pleased to announce that Will Tobin has joined the Club to head up our offshore business. Will has substantial experience in the offshore sector and until recently held a similar position at another International Group Club.

He will augment our existing offshore team, helping to expand the Club's client base and project our service to a global membership in this specialised area of operation.

We have identified offshore as an area for growth as it complements our existing product portfolio and core strength of outstanding service as well as building on existing knowledge and experience.

Details of the Club's Offshore Cover product can be found below.

Offshore Cover

The West of England recognises the unique nature of risks faced by Members operating in the offshore sector and offers a tailor-made insurance product to cover these additional risks which sits alongside and augments the Member's normal P&I Rules cover.
