Executive Summary

The West consolidates its capital strength with all-time high Free Reserves, a Solvency II ratio of 233% and a re-affirmed A- rating with Standard and Poor's.

Group
Solvency
ratio
233%

S&P rating

eligible
own funds:
**USD
410m**

Combined
ratio:
107%

Free Reserves rose to USD 338.1 million, increasing by USD 31.7 million from 20 February 2019. While this increase was driven by an exceptional investment return of +6.5%, operating performance again improved with a combined ratio of 107%. Standard and Poor's last re-affirmed the Club's A-rating in December 2019 reflecting their view that the Club will be able to maintain its "extremely strong" level of capitalisation.

This Solvency & Financial Condition Report ("SFCR") as at 20 February 2020 provides further detail on the capital strength of the Club and its Group Solvency II ratio of 233%. The Eligible Own Funds further increased to USD 409.5 million (Group Basic Own Funds of USD 321.6 million and Ancillary Own Funds of USD 87.9 million), providing a considerable margin over the Group Solvency Capital Requirement ("SCR") of USD 175.8 million.

The Club's solvency level reflects both its financial strength and its moderate risk appetite consistent with the overarching objective of preserving its Members' capital. This capital strength positions the Club well to meet the increasing insurance requirements of its Membership through its robust governance and risk management processes, and its continued commitment to high quality service.

COVID-19 Developments

Following the unparalleled development of the Covid-19 outbreak and the unprecedented responses by governments worldwide, the Directors and the staff of the Group (the "Managers") have been focusing on ensuring the safety of the Association's staff across multiple offices and the continuity of service to our Members. The Managers successfully deployed the Association's business continuity plan, allowing all staff to work remotely with immediate effect and with no disruption to the service provided to the Membership and in compliance with local administrative guidelines.

Our Members are inevitably impacted by the consequent slowdown in global trade and it is particularly important that the Club is as supportive as possible during this exceptional time.

Financial markets world-wide are facing on-going volatility in the wake of the pandemic and the Directors and the Managers have been monitoring the impact of this volatility on the Association's financial strength and liquidity daily. The Association has maintained a conservative investment strategy for a number of years and this strategy, driven by the objective of mitigating the downside risk of returns, preserving our Members' capital and Club's solvency position as well as overall liquidity, has ensured extreme

Executive Summary (continued)

COVID-19 Developments (continued)

market movements, such as those experienced in March 2020, can be absorbed without unduly impacting the Association's capital and liquidity positions.

The market has since recovered and at the time of writing the Club's investment return in the year to date is positive but nevertheless the Directors and the Managers are firmly committed to addressing the future developments of the pandemic and its potential impact on the Association's operations and financial strength and supporting our Membership will be at the forefront of our approach.

Regulatory Disclosures

This SFCR was approved by the Board of Directors of the Association on 8 July 2020. It has been prepared in accordance with the requirements of the Solvency II Directive and related Delegated Regulation as transposed into the Luxembourg Insurance Law of 7 December 2015. The report covers Business & Performance, System of Governance, Risk Profile, Valuation for Solvency Purposes and Capital Management.

As a single SFCR, this document includes the disclosure obligations of the Club's two entities which are subject to Solvency II regulation, both at Group level and Entity level:

- The West of England Ship Owners Mutual Insurance Association (Luxembourg) - Group
- The West of England Ship Owners Mutual Insurance Association (Luxembourg) - Entity
- International Shipowners Reinsurance Company S.A.

(hereafter referred as "ISRe")

All monetary figures in the report are in USD '000 unless specified otherwise.

All consolidated accounting figures in the tables in this report are reported both on a Market Value basis¹ and Luxembourg GAAP ("Lux GAAP") basis² while all Solo entity and ISRe financial statements are produced on a Lux GAAP basis only.

¹ The consolidated accounts of the Club are prepared on a market value basis for comparison with other members of the International Group of P&I Clubs.

² Investments on a Luxembourg GAAP basis are valued at the lower of cost and market value.

Business & Performance

A.1 Business

The West of England Ship Owners Mutual Insurance Association (Luxembourg), whose origins date back to the 1830s, is a leading mutual marine insurer providing its worldwide Membership of shipowners, charterers and operators with liability insurance and related services. In addition to providing mutualised protection and indemnity insurance it also safeguards and promotes its Members' interests in other areas of their business by, for instance, providing regular advice and guidance about loss prevention, sanctions or any relevant changes in maritime law and practice.

The Club is a mono-line underwriter of P&I risks, operating as one of 13 independent clubs in the International Group of P&I Clubs ("IG") which together provide liability cover for the majority of the world's merchant marine fleet. P&I cover has developed over more than 150 years in response to shipowners needs, to provide coverage and levels of cover substantially unavailable in the traditional marine insurance markets. The Club's market share is over 8% of the IG's mutual P&I premium.

The Club underwrites primarily P&I risks and provides cover of over USD 7.5 billion per claim but with separate limits of cover for oil pollution of USD 1 billion, USD 2 billion for passenger liabilities and USD 3 billion for passenger and crew liabilities combined.

The main areas of cover are for liabilities, costs and expenses incurred in respect of:

- Injury, illness or death of seafarers, passengers and others;
- Loss of or damage to cargo;
- Wreck removal;
- Pollution;
- Collision;
- Damage to fixed and floating objects;
- Fines and civil penalties.

The individual club retention is currently USD 10 million. In aggregate, the P&I clubs offer cover through a combination of the individual club retention, the International Group Pool, the International Group General Excess of Loss Contract, the Collective Overspill Reinsurance Contract and the Group Overspill System.

The Club also provides discretionary insurance for legal expenses, also known as Freight, Demurrage and Defence (or "FDD") risks, to complement the P&I insurance of entered vessels.

The Club was established in its current form in 1970 when its headquarters were relocated from London to the Grand Duchy of Luxembourg to ensure that the Club would be domiciled in a country with an established international financial centre, a favourable exchange control regime and a stable and beneficial legal system for mutual insurance Clubs.

The Club currently insures 345 fleets, representing 4,252 insured vessels and approximately 101.7 million gross tonnes (all numbers at 20 May 2020).

Since the Club is managed as a consolidated entity, this report has been prepared on a single Group basis. Where it differs from that of the Group, this report also includes information about the Club on a standalone or "Solo" basis and about International Shipowners Reinsurance S.A. (ISRe), a wholly-owned reinsurance subsidiary of the Club also domiciled in Luxembourg.

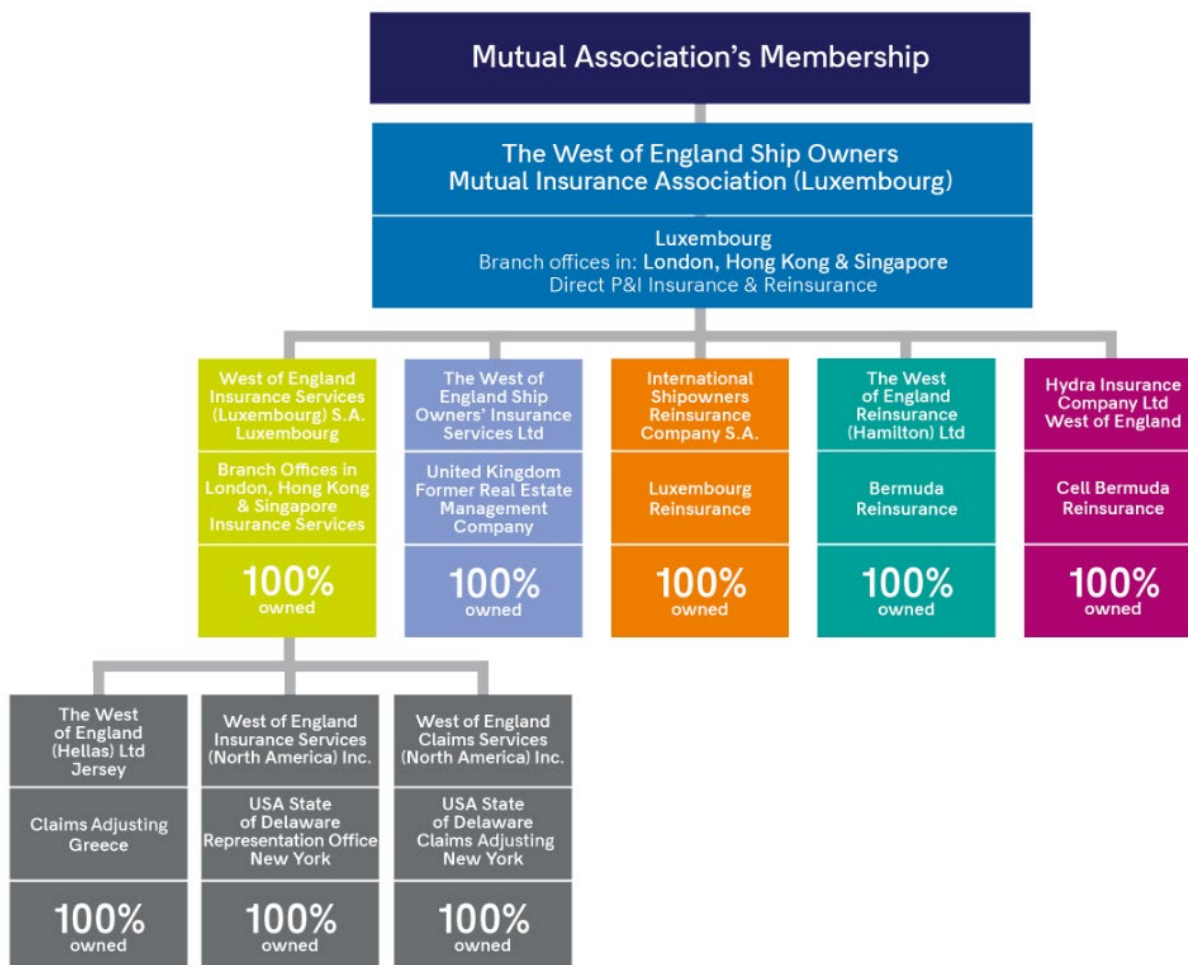

The Club has been interactively rated A- by S&P since November 2016, with a stable outlook, a rating that has been re-affirmed in December 2019.

Ownership and Group Structure

This section refers to Guideline 1 in the EIOPA Guidelines on Reporting & Public Disclosure.

As a mutual insurance association, the Club has no beneficial ownership. Its Members have voting rights at the Annual General Meeting in proportion to their entered tonnage. As at the date of this report the largest lead Member is COSCO Shipping, which on a consolidated basis represents 11.4% of the voting rights. However, due to the very large number of Members and the fact it is not represented on the Board of Directors, COSCO Shipping is not considered a “controlling entity” of the Club from a regulatory perspective.

The Group’s structure is as follows:

The West of England Ship Owners Mutual Insurance Association (Luxembourg) is the ultimate holding company within the West of England Group. It acts as primary insurer and risk carrier for all Members and is established in Luxembourg where it is regulated and supervised by the Commissariat aux Assurances (“CAA”). The Club operates worldwide through branches in the UK, Hong Kong and Singapore. Its external auditors are Deloitte, 20 Boulevard de Kockelscheuer, 1821 Luxembourg.

The Club’s branch office activity in the UK is supervised by the Prudential Regulation Authority (“PRA”) and the Financial Conduct Authority (“FCA”). The Hong Kong branch is supervised by the Insurance Authority (“IA”) and the Singapore branch is regulated by the Monetary Authority of Singapore (“MAS”). The Club is also registered as an alien Surplus Line insurer underwriting risks in the U.S. with the National Association of Insurance Commissioners (NAIC).

The Club is passported across the European Union to do business under the Freedom of Services.

The Club has appointed its subsidiary, West of England Insurance Services (Luxembourg) S.A. (“Services” or “the Managers”) with branch offices in London, Hong Kong and Singapore to run its day-to-day insurance operations. Services has a fully owned subsidiary in Jersey, West of England (Hellas) Ltd (“Hellas”), which acts as a representative office in Piraeus for claims adjusting. It has also established two fully owned subsidiaries in the United States of America, West of England Insurance Services (North America) Inc. which promotes the Club’s interests in North America, and from October 2019, West of England Claims Services (North America) Inc. which will assist its parent company in the management of claims in North America.

In the context of Brexit, both the UK branch of the Association and the UK branch of Services which have been operating under Freedom of Establishment have entered the Temporary Permissions Regime (TPR) in the UK and in Gibraltar and will apply for Third Country Branch licences before 31 December 2022.

The Club fully owns International Shipowners Reinsurance Company S.A. (“ISRe”) which currently reinsures 80% of the Club’s net underwriting risks, essentially on a quota-share basis, and manages the investment portfolio on behalf of the group through a pooling mechanism. ISRe is also headquartered in Luxembourg and, as such, regulated and supervised by the CAA.

In addition, the Group has the following wholly owned subsidiaries:

Subsidiary	Purpose
The West of England Reinsurance (Hamilton) Ltd.	Hamilton reinsures currently 10% of the business of its parent mainly on a quota-share basis.
A segregated “Cell” in Hydra Insurance Company Ltd. (“Hydra”)	Hydra is a captive reinsurer comprising 13 individual cells, each one owned by one of the Clubs of the IG. Hydra retains a portion of risk under the IG Pool and the Group Excess Loss Reinsurance Programme. It is designed to secure payment by clubs of their contributions to the Pool. Hydra forms part of the reinsurance structure under the IG Pooling Agreement.
The West of England Ship Owners Insurance Services Limited (“Services Ltd”)	This entity used to be the Club’s Management Company in London (Tower Bridge Court) prior to 2006. It then owned and managed the Club’s property in London. Since Tower Bridge Court was sold in July 2018, the Company is now effectively dormant and has no activity.

Offices and Headcount

At 20 February 2020, the Club employed 148 staff, or 145.7 full time equivalents with the following breakdown:

Location	Description	Primary Functions	Staff
Luxembourg	Head Office	<ul style="list-style-type: none"> Representation of the Board Compliance, including Solvency requirements, Legal and Company Secretariat Investments 	4
London	Services Branch	<ul style="list-style-type: none"> Underwriting, Claims Management Accounting and Corporate Finance Support Functions (HR, IT) 	83.5
Hong Kong	Services Branch	<ul style="list-style-type: none"> Underwriting and Claims Management 	35.2
Singapore	Services Branch	<ul style="list-style-type: none"> Underwriting and Claims Management 	7

Piraeus	Representative Office – West of England (Hellas) Limited	<ul style="list-style-type: none"> Claims Adjusting 	14

New York	Representative Office / West of England Claims Services (North America) Inc.	<ul style="list-style-type: none"> Claims Management services for North America 	1
Total			145.7

Business Overview

The Club's posted a strong surplus for the year ending 20 February 2020 with Free Reserves increasing by USD 31.7 million, the main driver of this surplus being an exceptional 6.5% investment return. The Club's operating performance improved significantly with a combined ratio of 107% compared to 114% for the previous financial year, which however remains above the Club's medium-term target of better than 100%.

After two policy years 2017 and 2018 in which the Club suffered an exceptional level of large losses, policy year 2019 developed within expectations for its first 12 months, and previous policy years have run-off favourably. The cost of other Clubs' Pool claims increased during the year, mainly due to the second largest claim ever notified to the International Group, the Golden Ray, which represents half of the Club's incurred cost recorded at the 12-month stage.

Although the Club maintained a conservative risk profile and balanced strategic investment allocation it posted an exceptional investment return of +6.5%, the eleventh consecutive year of a positive investment return. Excluding direct property holdings and taxes, the Club's portfolio of financial assets returned 6.9%. All asset classes performed well in excess of their expected return due to supportive monetary policies globally.

Free Reserves now stand at USD 338.1 million, confirming the Club's robust financial health with capital continuing to be well in excess of the S&P "AAA" rating levels and the requirements of Solvency II.

The financial strength of the Club (Consolidated and Solo) and ISRe is reflected in its strong Solvency II ratios:

Entity	Solvency II Ratio		Coverage of Minimum Capital Requirement (MCR)	
	2020	2019	2020	2019
Club Consolidated	233%	237%	431%	427%
Club Solo	327%	323%	1,109%	1,093%
ISRe	162%	162%	387%	374%

A.2 Underwriting Performance

The following table provides a summary of the Club's underwriting performance for the financial year ended 20 February (in USD '000):

	Club Consolidated (Market value basis)		Club Consolidated (Lux GAAP)		Club Solo		ISRe	
	2020	2019	2020	2019	2020	2019	2020	2019
Gross Premium Earned	221,663	219,726	221,663	219,726	221,663	219,726	91,627	92,969
Net Premium Earned	181,755	181,080	181,755	181,080	65,510	66,797	91,627	92,969
Net Incurred Claims	(156,726)	(169,668)	(156,726)	(169,668)	(26,292)	(28,806)	(104,865)	(101,959)
Operating Expenses	(38,182)	(37,438)	(38,037)	(37,302)	(37,457)	(35,611)	(522)	(465)
Net Underwriting Result	(13,153)	(26,026)	(13,008)	(25,890)	1,761	2,380	(13,760)	(9,455)
Combined Ratio	107%	114%						

Gross premium earned for 2019/20 increased by 0.9% to USD 221.7 million. The Club's underwriting result, showing a deficit of USD 13.2 million for the financial year ended, represented a combined ratio of 107%. The five-year average combined ratio now amounts to 102%, slightly in excess of the Board objective of better than 100%. The underwriting performance demonstrates that premium rates need to increase if operating results are to return to a positive position. Until then, investment return will continue to be required to subsidise operating losses.

Underwriting performance across the whole International Group has been deteriorating for a number of years and while there is a consensus that premium rates need to increase, and indeed a number of Clubs called a general increase for Policy Year 2020, the capital strength across the Group means that rates are unlikely to correct sufficiently in the near-term.

A.3 Investment Performance

The Club's overall investment return for the year ending 20 February 2020 was a positive 6.9% net of fees, excluding the Club's Hong Kong property. On a net of tax basis and including the Club's Hong Kong property, this return was 6.5% or USD 44.6 million.

Despite slowing growth globally and numerous geopolitical risks (U.S./China trade dispute, Middle East, Brexit), financial conditions have been very supportive and the Club's Investment Portfolio return was well in excess of the forecast for the year. The main driver of this excess return was the shift in monetary policies in the U.S. and in Europe after a period of normalisation in 2018, while several risks receded between late 2019 and year-end. With central banks adopting an accommodative stance to support the economic cycle, bond yields decreased significantly (the Federal Reserve Bank cut rates four times between June 2019 and February 2020) and risk assets benefited from lower risk premium and attractive relative value in a "low for longer" yield environment.

In this context, the Club's Liability Matching Portfolio returned +7.1%, supported by the decrease in U.S. bond yields across maturities. Capital gains caused by this change in yields resulted in the bond portfolio returning far more than its average yield to maturity at the beginning of the year. Credit spreads were relatively stable during the first part of the year but tightened during Q4 2019, which provided additional return to the Club's credit exposure.

Liquid assets in the Growth Portfolio returned +10.9%, driven by Equity holdings which rose +16.9%. The Real Assets portfolio returned +7.0%, above expectations in a late cycle stage, benefiting from investors' appetite for Real Estate and Infrastructure assets in this low yield environment.

The Club has continued to maintain a conservative investment strategy, consistent with the risk appetite set and reviewed by the Board. This strategy is driven by the longer-term objective of maintaining low volatility, appropriate liability matching and therefore overall stability of the capital position. The portfolio remains primarily invested in high quality and liquid securities.

As at 20 February 2020, the market value of the Club's financial assets was some USD 710.6 million (2019 USD 694.4 million). The portfolio structure and net returns were as follows:

	Weight		Net Return	
	2020	2019	2020	2019
Contingency Cash portfolio	13.9%	19.6%	+0.7%	+0.8%
Liability Matching portfolio	56.3%	58.0%	+7.1%	+3.0%
Growth portfolio - Liquid	24.6%	18.4%	+10.9%	+0.8%
Growth portfolio - Illiquid	5.2%	4.0%	+7.0%	+2.7%
Total	100%	100%	+6.9%	+2.2%

Net investment returns of financial assets, by portfolio and by entity were as follows:

	Club Consolidated (Market value basis)		Club Consolidated (Lux GAAP)		Club Solo		ISRe	
	2020	2019	2020	2019	2020	2019	2020	2019
Contingency Cash Portfolio	+0.7%	+0.8%	+0.7%	+1.5%	+0.7%	+0.7%	+0.6%	+1.7%
Liability Matching Portfolio	+7.1%	+3.0%	+3.6%	+3.2%	+3.6%	+3.2%	+3.6%	+3.2%
Growth portfolio - Liquid	+10.9%	+0.8%	+4.1%	+1.9%	+4.1%	+1.9%	+4.1%	+1.9%
Growth portfolio - Illiquid	+7.0%	+2.7%	+4.5%	+0.6%	+4.5%	+0.6%	+4.5%	+0.6%
Total	+6.9%	+2.2%	+3.3%	+2.6%	+2.9%	+2.1%	+3.4%	+2.8%

A.4 Performance of Other Activities

The Club on a consolidated basis and ISRe did not record any material gains or losses resulting from other activities during the financial year ended 20 February 2020. On a solo basis, and in addition to the investment return presented above in section A.3, the Club received a dividend from its subsidiary The West of England Ship Owners' Insurance Services Limited, following the disposal of the Club's London property Tower Bridge Court in 2018.

Please reference section D1 Leasing Arrangements in relation to Guideline 2 of the EIOPA Guidelines on Reporting & Public Disclosure.

A.5 Any Other Information

Overall Performance

The combination of underwriting performance and investment return generated an overall profit of USD 31.5 million (2019 deficit of USD 0.7 million). The breakdown of the Income & Expenditure result by entity is as follows (in USD '000):

	Club Consolidated (Market value basis)		Club Consolidated (Lux GAAP)		Club Solo		ISRe	
	2020	2019	2020	2019	2020	2019	2020	2019
Underwriting Result	(13,153)	(26,026)	(13,008)	(25,890)	1,761	2,380	(13,760)	(9,455)
Investment Return	45,820	28,601	22,291	71,599	6,295	45,279	13,734	9,712
Taxes	(1,186)	(3,251)	(1,186)	(7,111)	(1,282)	(995)	26	(257)
Surplus / (Deficit)	31,481	(676)	8,097	38,598	6,774	46,664	-	-

System of Governance

B.1 General Information on System of Governance

Board of Directors

The Club, like most P&I Clubs, operates on a mutual basis. A significant feature of the mutual structure is that the Club's policyholders are also its sole and ultimate economic stakeholders.

The Club's Board and committees comprise only Non-Executive Directors: Member Directors and Independent Directors representing specific areas of expertise.

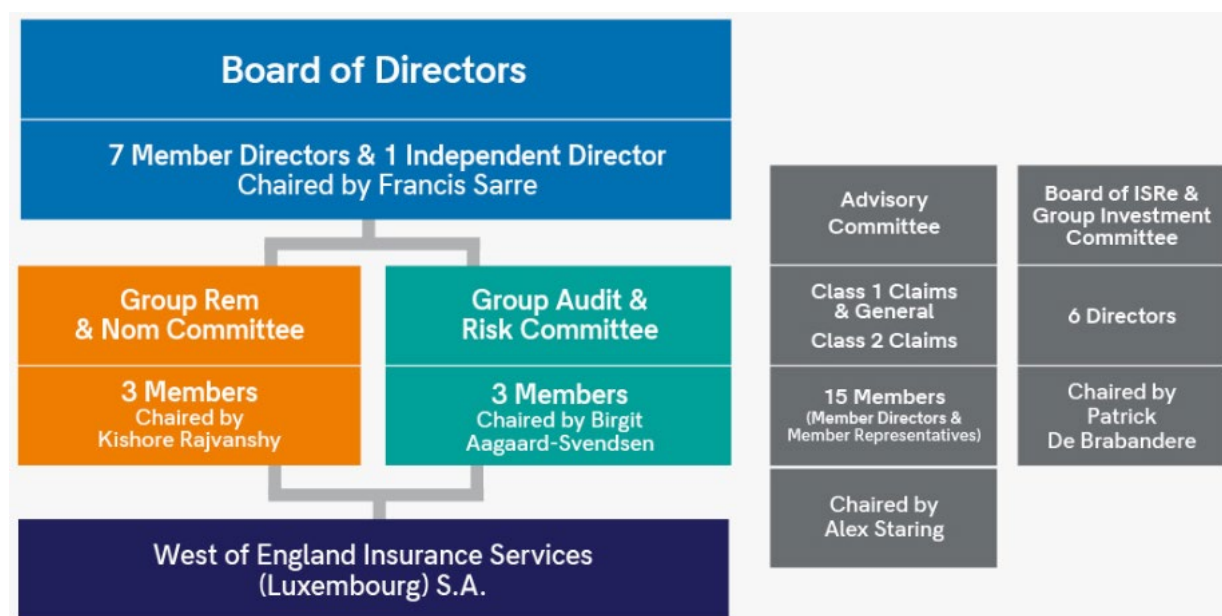

The Club's Board currently has 8 Non-Executive Directors, 7 drawn from the Membership of the Club (Member Directors) and 1 independent (the former CFO of a listed shipping company). These Directors represent the mutual interests of the Club and come from a broad range of backgrounds and regions, mainly within operational, legal and financial disciplines.

The Board governs through a Committee structure consisting of the following committees:

- A Group Nomination & Remuneration Committee: currently 3 Member Directors;
- A Group Audit & Risk Committee: currently 1 Independent Director (as Chairman of the Committee) and 2 Member Directors;
- An Advisory Committee: currently 15 members, 2 Member Directors and 13 representatives of the Membership.

The Club's governance structure, including the terms of reference of the various committees is described in the Constitution and in the Corporate Governance Charter.

The investment strategy, investment risk and ex-post supervision of the investment portfolio are performed through the Board of ISRe acting as the Club's Group Investment Committee. The Board of ISRe is currently composed of 6 Directors: 2 Member Directors including the Chair of the Club's Board, 3 Independent Directors, including the Chair of the Group Audit & Risk Committee, and 1 Executive Director.

The Board of West of England (Hamilton) has currently 6 Directors, including 3 Member Directors.

The Club's Board and Committees meet at least three times a year to conduct and monitor business. The Board is responsible for deciding business and financial strategy and controlling results against objectives. This includes risk tolerances, solvency and capital adequacy, underwriting objectives, reinsurance programme, and investment strategy.

The Club's Board also reviews and approves the Risk Management framework, the Own Risk and Solvency Assessment (ORSA) and all relevant corporate policies.

The Club's Board relies on the Managers of West of England Insurance Services (Luxembourg) S.A. to execute the strategy and business plan and to manage the Club's business on a day-to-day basis.

The Club's Managers

Services is responsible for the Club's day-to-day operations through its branches and according to a Management Agreement signed with its Parent Association. This comprises negotiating policy renewals and the underwriting of new business, claims adjusting and claim handling, reinsurance negotiation and management, risk management, business continuity, internal control, finance and all other aspects of technical operations.

The Club is unusual in that its management company is a wholly owned subsidiary, whereas for a majority of other clubs it is a profit-making third-party partnership or company. This aspect of the Club's structure enhances corporate governance by providing closer ties and total alignment of interest between the Members and their Managers.

Services' Board meets monthly at which key financial and business data as well as compliance topics are reviewed while risk tolerances and indicators are reviewed quarterly by a Risk Committee.

Services' structure consists of seven main functions operating across its geographical locations, each headed by a Director or Directors reporting to the Chief Executive Officer ("CEO") and Services' Board.

These functions are:

- Operations & Business Continuity, including IT and Risk Management;
- Underwriting, including Loss Prevention;
- Claims Management;
- Finance, including the Actuarial Function and Data Quality;
- Compliance;
- Maritime Regulation, IG, Standards and Corporate Matters.

Remuneration Policy

Non-executive Directors are remunerated on a fixed fee basis, including Board and Committee meetings attendance. The level of fees is reviewed annually by the Nomination & Remuneration Committee. The attendance schedule of Directors is reviewed at every Board meeting.

Pursuant to the Club's Remuneration Policy, the Group Nomination & Remuneration Committee also reviews and reports to the Board in the setting of objectives for the Services MD and Managers' Directors, evaluating their performance and making recommendations in respect of their remuneration.

Services staff are paid on a fixed salary basis and are entitled, inter alia, to pension scheme and healthcare benefits.

B.2 Fit & Proper Requirements

The Club's policy is to ensure that the persons who effectively run the business or have other key functions in the organisation are 'fit'. For that purpose, the Club ensures that there is appropriate diversity of qualifications, skills and experience so that the Club and its subsidiaries are managed and overseen in a professional manner.

The Club also ensures that those persons running the business or having key management responsibilities are 'proper' by assessing their honesty, integrity and reputation.

The Fit and Proper policy is designed to assess the 'fit and proper' status of key individuals whether Directors or senior managers of the Club. It reflects the EIOPA guidelines on the system of governance issued in the context of the implementation of Solvency II³.

The policy applies to the Administrative, Management or Supervisory Body (AMSB) of the Club and its subsidiaries which represents the persons running the business:

- All new Directors (executive, non-executive and independent Directors) appointed to the Board of the Club or its subsidiaries;
- All existing Directors (non-executive and independent Directors) of the Club or its subsidiaries;
- The General Manager of the Club.

It also applies to the CEO of Services and officers in charge of the Four Key Functions:

- Chief Actuary;
- Risk Manager;
- Compliance Manager;
- Internal Auditor.

B.3 Risk Management System Including the Own Risk and Solvency Assessment (ORSA)

The Association has established a management process for Risk Management ("RM") as part of its second line of defence. RM is under the responsibility of the Chief Operating Officer ("COO") and performed by the Risk Manager.

The RM policy is approved by the Club's Board and monitored on its behalf by the Group Audit & Risk Committee at every meeting. Day-to-day implementation and executive oversight are performed by the Managers' Board and its executive Directors through a dedicated Risk Committee coordinated by the Risk Manager.

RM policy is set by the Club's Board and monitored on its behalf by the Group Audit & Risk Committee. Day-to-day implementation and executive oversight are performed by the Services' Board and its executive Directors through a dedicated Risk Committee.

³ Reference: EIOPA-BoS-14/253.

Key roles and responsibilities within the RM framework are defined as follows:

Stakeholder	Role & Responsibilities
Club's Board	<ul style="list-style-type: none"> • Approve the RM policy and framework; • Determine the Club's strategy and risk appetite, based on an understanding of the strategic challenges and related risks facing the Club.
Club Board's Group Audit & Risk Committee (Group Audit & Risk Committee or GARC)	<ul style="list-style-type: none"> • Review the scope and effectiveness of RM; • Promote a risk aware culture; • Propose risk appetite and tolerances. Monitor actual risk against agreed thresholds and benchmarks, note exceptions and corrective actions proposed by Managers and Internal Auditor; • Monitor emerging risks; • Report on breaches or changes in methodology to Club's Board; • Note corrective actions proposed by External and Internal Auditors.
Chief Operating Officer (COO) & Risk Manager	<ul style="list-style-type: none"> • Lead the RM policy and chair the Manager's Risk Committee; • Implement and operate the RM process for the identification, assessment, management, reporting and monitoring of risks, including the cascading of risk tolerances and identification of other relevant benchmarks; • Embed the RM process into the Club and its decision making process; • Monitor actual risk against tolerances, report to the Risk Committee and Group Audit & Risk Committee on breaches; • Collect views and intelligence on emerging risks; assess emerging risks.
Managers' Risk Committee (COO, Risk Manager, Underwriting Director or CEO, Claims Director, CFO, and General Manager)	<ul style="list-style-type: none"> • Update, propose to the Group Audit & Risk Committee and oversee implementation of the RM policy and framework; • Review risk areas and risk exposure, monitor progress and report breaches against tolerances and limits; • Review the Risk Events Log and breaches of risk appetite; • Identify and assess emerging risks.
Internal Auditor	<ul style="list-style-type: none"> • Conduct independent reviews, follow-up progress plans and present findings to the Group Audit & Risk Committee; • Report to the Group Audit & Risk Committee; • Report on emerging risks.

Risk Register

The Managers' Risk Committee has identified and assessed several risks relating to the Club's business and operating environment. These risks have been formalised in a Risk Register, which is regularly reviewed by the Risk Committee, by the Group Audit & Risk Committee and by the Club's Board. Additionally, any significant change to the Risk Register must be approved by the Group Audit & Risk Committee and subsequently the Club's Board.

The Risk Register identifies and includes the following topics:

- A description of each risk and business area impacted.
- The Risk Owner responsible for monitoring and managing a risk area.
- "Gross (inherent) risk rating": inherent probability and potential impact or severity of a risk.
- Controls mitigating cause, probability and severity of each risk, and Control Owner (who can be different from the Risk Owner).
- "Net (residual) risk rating": level of risk, after mitigating controls in place and effective.
- "Target net risk rating": desired level of risk equivalent to Net Risk Rating.

The Risk Register, developed in accordance with the RM framework, is formally reviewed at least annually by Risk Owners and quarterly by the Managers' Risk Committee. A self-assessment of effectiveness and implementation of controls is also performed annually, or every time a new control is introduced.

Relevant information to assess risks and mitigation processes may include the findings of the Internal Auditor's reports as well as risk events that have arisen in the course of the business, within the Club or within the industry. The Managers' Risk Committee maintains a Risk Events Log, which records occurrences that actually or potentially affect the business. Alongside this information are details of the actions identified to remedy the matter in the short and longer term.

The Club's risks have been assessed in terms of their impact and probability, on both an inherent and residual (i.e. after mitigation) risk basis. The combination of potential impact and estimated frequency of occurrence on a 1-year horizon provides the gross assessment of each risk or category of risk. After accounting for mitigating controls, the gross risk position translates into a net risk position whose impact and/or frequency is normally lower and close to the desired level of exposure.

The Club also monitors emerging risks on an on-going basis to assess these in terms of both their potential timing and likely impact on the Club's business.

The Solvency Capital Requirement (SCR) calculated under Solvency II is another significant component of the RM framework. It is based on the Standard Formula which relies on different risk modules. The volatility of each of these risk modules determines the amount of capital to be held by the Club to maintain an appropriate immediate and prospective solvency position. The volatility of each risk module (e.g. Underwriting Risk) has been determined by assessing the historic volatility across a wide range of European insurers.

Own Risk & Solvency Assessment ("ORSA")

The Board of the Club has approved an Own Risk & Solvency Assessment (ORSA) policy.

ORSA is an integral part of the Business Planning and Risk Management processes of the Club. As such ORSA has become a critical internal tool for the Club and its Board to:

- Assess the Club's overall risk appetite against both capital strength and strategic objectives;
- Assess key decisions and allocate available capital accordingly;
- Ensure that the future capital position of the Club does not deteriorate beyond risk tolerance.
- Identify remediations in case of a stress scenario and significant deterioration of the solvency position.

The ORSA is prepared by the General Manager and senior management of Services and approved by the Club's Board which has ultimate responsibility for its completion. It is updated annually or anytime a material change in the market or the business of the Club occurs.

With reference to **Guideline 4** of the **EIOPA Guidelines on Reporting & Public Disclosure**, the Club does not use an internal model, even partial, for calculating its Solvency II capital requirements.

Compliance Function

The Compliance Function as second line of defence is performed in accordance with Article 46(2) of the Solvency II Directive 2009/138 and Article 270 of the Delegated Regulation 2015/35, and with relevant international regulations or advisories on key matters such as commercial and financial sanctions.

The role of Compliance is to protect the Club, its Members, its employees and other stakeholders by ensuring and fostering a culture of adherence to regulatory requirements through training, policies and procedures as well as relevant reporting.

The owner of the Compliance Function is the Club's General Manager. He is assisted by a Compliance Manager operating across the jurisdictions in which the Club operates.

A Compliance Risk Assessment and a Compliance Annual Plan has been reviewed and approved by the Group Audit & Risk Committee. A Compliance Register is maintained by the Compliance Manager to record incidents or potential issues and to follow-up actions taken. A Compliance Dashboard is reviewed monthly by the Management Board and by the Group Audit & Risk Committee at every meeting.

Sanctions continue to be considered by the Managers and the Board as the highest Compliance risk in the P&I and shipping industries. Specific procedures, tools and training have been designed and implemented to mitigate this risk as much as possible.

B.4 Internal Control System

There is a robust internal control system in place within the Club, formalised in the Club's procedures and policies. These procedures and policies are regularly reviewed and are available to the staff on the Club's intranet.

The management structure in place guarantees a robust review process (four eyes principle), which is challenged both by internal and external auditors.

The three lines of defence approach to risk management, explained in section B.3., is an integral part of the Club's internal control environment.

B.5 Internal Audit

The Internal Audit Function acts as the third line of defence.

Every year the Club performs an Internal Audit Plan in accordance with its terms of reference. The Internal Audit Plan is reviewed and approved by the Club's Group Audit & Risk Committee.

Follow up from previous internal audits is also reviewed by the Group Audit & Risk Committee at each meeting.

The Internal Audit Function is outsourced to an Accounting and Advisory Firm, BDO who have extensive experience in working with IG clubs and the wider insurance market for both internal and external audits and consultancy. BDO reports directly to the Chairman of the Group Audit & Risk Committee.

B.6 Actuarial Function

The Actuarial Function is part of the second line of defence.

The owner of the Actuarial Function is the Club's Chief Actuary, who reports to the Chief Financial Officer. The Chief Actuary is a Fellow of the Institute and Faculty of Actuaries. The internal actuarial work is performed in conjunction with an external consulting firm, which ensures there is sufficient challenge and review.

The Actuarial Function is responsible for coordination and review of the Club's technical provisions, providing an opinion on underwriting policy, reinsurance policy and contributing towards the risk management system risk profile. An Actuarial Function Report on these matters is provided to the Group Audit and Risk Committee on an annual basis.

B.7 Outsourcing

The Club relies on several service providers. For that purpose, the Club has issued an Outsourcing Policy to ensure outsourcing risks are properly managed and that the level of services is in line with required standards.

There is a senior manager or a key function holder responsible for each outsourced service.

Some of these outsourced services fall within the scope of the Solvency II Directive:

Service	Provider	Geography	Scope
Intra-Group Outsourcing	West of England Insurance Services (Luxembourg) S.A.	Luxembourg UK Hong Kong Singapore Greece United States of America	Day-to-day management of the Club outsourced to the Services Company
Internal Audit	BDO	Luxembourg UK Hong Kong Singapore Greece	Internal audit
Actuarial Services	Willis Towers Watson	UK	Technical reserves
Investments	Brown Brothers Harriman	Luxembourg	Investment accounting and compliance
Investments	PIMCO Colchester AXA IM	USA UK USA	Bond portfolios managers (segregated accounts)
IT Development	Spark! Data Systems	UK	Application development, maintenance and support

B.8 Any Other Information

There is no other significant governance information to be disclosed.

Risk Profile

Risk assessment and risk mitigation are at the core of P&I insurance business. Risk exposure is mitigated through appropriate processes and controls, stress testing as well as capital buffers.

All risks relevant to the Club's business and its operations are assessed and reviewed within the ORSA process.

C.1 Underwriting Risk

The Club's underwriting objective is to charge premiums that reflect the risks it insures and the strategic objective to maintain a Combined Ratio lower than 100% on a three-year rolling basis. The principal risk for any insurer is that the frequency and value of insured losses exceed expectations.

The Board sets an Underwriting strategy which determines how the Club accepts and manages new and renewing insured risks. This strategy ensures that insured risks are diversified, for example by vessel type and geographical area, to ensure a sufficiently large and diverse population to reduce the variability of the expected outcome of insured losses.

Diversification of underwriting across categories of vessels and regions is evidenced in the next two tables:

Bulk Cargo Carriers	Tankers & OBOs (inc. LPG / LNG)	Container Vessels	General Cargo & Reefers	Ferries & Passenger Liners	Specialist Vessels & Misc.
40.3%	29.0%	17.6%	9.7%	1.6%	1.8%

Asia	Middle East / Africa	Americas	Greece	Other Europe
41.3%	6.3%	5.4%	20.8%	26.2%

Underwriting risk is considered both at individual fleet level and from a portfolio management perspective, where insured risks are assessed in the light of historical experience and future exposure. To assist the process of pricing and managing underwriting risk the Managers routinely perform a range of activities including:

- Documenting, monitoring and reporting on the Club's strategy to manage risk;
- Monitoring legal developments and amending the terms of entry when necessary;
- Reviewing market and financial conditions of the industry;
- Using underwriting tools to assist in the assessment and pricing of risk.

The Club's insurance contracts include terms that operate to contain losses, such as deductibles being matched to the risk profile.

Reinsurance significantly mitigates the risk of exposure to large individual claims, both at the Club's retention level and at the International Group level through the IG Pooling Agreement whereby for policy year 2020 individual claims above USD 10 million are pooled among the 13 clubs up to USD 100 million and reinsured outside the Pool above USD 100 million.

Premiums earned net of reinsurance cost are as follows:

Entity	Gross Premium Earned (USD '000)	Net Premium Earned (USD '000)
Club Consolidated (Market value basis)	221,663	181,755
Club Consolidated (Statutory)	221,663	181,755
Club Solo	221,663	65,510
ISRe	91,627	91,627

With specific reference to Guideline 5 of the EIOPA Guidelines on Reporting & Public Disclosure the Club does not use Special Purpose Vehicles to transfer risk to investors.

C.2 Market Risk

Market or Investment Risk is the risk of an unexpected loss or a significant deviation from the forecast investment return resulting from a material change in the valuation of equity and/or bond markets, and which would materially affect the Club's capital position. Investment risk also includes the negative effects of potential mismatches between assets and technical liabilities.

The Club follows the Prudent Person Principle and has a conservative approach to its financial investments.

The Club's investments are controlled by its Investment Policy and Investment Managers' Guidelines, including minimum credit ratings. The policy and guidelines are regularly reviewed and approved by the Board of the Club.

The risk tolerance appetite, calibrated primarily through financial stress scenarios, is also approved by the Club's Board on advice from the Board of ISRe acting as an Investment Committee. In addition to the risk tolerance, diversification across markets and securities is also a key risk mitigator.

An Investment Advisory Committee comprising qualified independent directors and internal staff, including the General Manager and CFO, meets regularly to review the portfolio and markets to make sure that risk remains within tolerance.

A review of performance and portfolio risk is performed by the investment team at least weekly and reported to the managers. The Board of ISRe and the Board of the Club review the risk, investment return and structure of the portfolio at every meeting.

The portfolio is structured in three sub-portfolios, each of them with specific objectives:

Contingency Cash portfolio

This portfolio represents the Club's cash liquidities necessary to the day to day business operations, including a liquidity buffer set in the Club's "Risk and Appetite Indicators". In addition, this portfolio includes cash collateral provided to third parties as part of the Club's operations.

Liability-Matching portfolio

The objective of this portfolio is to guarantee the timely payment of claims, and to provide an additional return in excess of the liability proxy benchmark (or risk-free asset) by having a moderate credit and duration exposure.

Growth portfolio

This portfolio is invested in financial assets being held to generate an excess return, but not for liquidity or liability matching purpose. This portfolio represents the main part of the Club's Free Reserves. It is invested

in a diversified way in liquid and illiquid assets (e.g. real estate, infrastructures, distressed debt) across markets according to the Prudent Person Principle. The Growth portfolio is the main driver for increasing or decreasing the risk/return profile of the overall Investment portfolio.

The Club has a limited exposure to Equity markets of some 10% of the investment portfolio, held in the Growth portfolio. Cash and Fixed Income are managed cautiously and most of the Bond portfolio aims at replicating the cash flow features of technical liabilities. Following the disposal of Tower Bridge Court, the Club maintained an exposure to Real Assets, favouring lower risk strategies within the risk spectrum of Real Assets (Core strategies, highly diversified in term of market segments and geographical exposure).

Diversification across asset classes, regions and securities is an important feature of the Club's investment philosophy and a natural way to mitigate market risks in the medium term.

All equities and bonds are held by a global custodian whose role is also to reconcile cash and security positions with the investment managers, to control the compliance with the Investment Managers' Guidelines and to produce a monthly valuation and accounting report.

At least once a year, management meets with the external investment managers individually as part of the on-going due-diligence process.

Property Risk

The risk of financial loss as the result of owning a property investment arises mainly from changes in valuation, but also from potential loss of rental income, legal / technical issues, and from potential "fire sales" due to the inherent illiquidity of such assets.

At 20 February 2020, the Club wholly owns a residential property in Hong Kong and is invested in Real Estate and Infrastructure investment funds within its Growth portfolio.

Property risks are mitigated by applying a cautious valuation policy, and by investing in Core strategies through commingled investment vehicles providing a solid diversification across geographical areas and segments of the Real Estate market.

The underlying currency risk of holding properties investments is fully integrated in the Club's currency management process (please refer to the next section).

Currency Risk

Currency risk is the risk that the underlying currencies of the Club's investments and other assets do not match those of the Club's total liabilities. Whilst the Club's technical liabilities arise in many different currencies, they are recorded and estimated in both the underlying currency and a USD equivalent. The individual claims estimates are reviewed to reflect currency movements in accordance with a timetable prescribed by the Club's managers and periodically management recalculate the overall position. Analysis of the overall liabilities by currency forms the basis of the investment currency ranges specified in the Investment Policy. In addition, the Board assesses the currency risk relating to the excess / shortage of non-USD assets (whether investments or not) held compared to the Club's technical and other liabilities. The Board regularly monitors the overall currency exposure in the balance sheet and ISRe management has authority to enter into forward currency contracts in order to adjust the position within the prescribed ranges.

The Club maintains a benchmark currency profile for investments which approximates to the currency exposure within its claims liabilities so that currency movements are effectively hedged. Despite the difficulty in determining currency exposure accurately, by monitoring historical payment patterns and recording the currency exposure within case estimates, it is possible to determine a measure of the risk and therefore the effectiveness of the currency hedge.

C.3 Credit Risk

The Club has exposure to counterparty default risk, which is the risk that a counterparty will be unable to pay amounts in full when due.

Key areas of exposure to counterparty risk include:

- Counterparty credit with respect to cash and cash equivalents, and investments (including deposits and derivative transactions);
- Reinsurers' share of insurance liabilities and amounts due from reinsurers in respect of claims already paid, including amounts due from other Group Clubs through the IG Pool;
- Amounts due from Members.

The Club manages the counterparty risk by placing and regularly reviewing limits on its exposure to third parties within the overall risk tolerance framework. The creditworthiness of reinsurers is reviewed before placements are made and monitored regularly thereafter. This includes IG processes to ensure the appropriateness of reinsurers on the IG excess loss programme. Controls exist within the IG to maintain the strength of the IG Pool; the Pool itself mitigates the risk of large claims and the structure of Hydra protects each Club from the risk of the default by one of the other Clubs.

There is no significant concentration of credit risk related to receivables as the Club has a large number of internationally dispersed ship owner and charterer Members. No single Member is sufficiently material to represent a high-risk credit exposure. The Club's Rules provide significant contractual rights to safeguard the Club's position and reduce its exposure to the consequences of default or partial payment.

Full provision is made for balances considered to be doubtful. This applies to reinsurance and insurance counterparties, intermediaries, Members, and banks.

Exposure by category of recoverables at 20 February 2020 was (all figures expressed in USD '000):

Type of Counterparty	Club Consolidated (Market Value basis)	Club Consolidated (Lux GAAP)	Club Solo (Lux GAAP)	ISRe (Lux GAAP)
Reinsurance Recoverables	138,360	138,360 (1)	482,465 (1)	-
Reinsurance Debtors	9,345	9,345	20,382	21,420
Membership Recoverables	51,474	51,474	51,474	-
Other Debtors	2,314	2,314	2,936	645
Banks	78,618	78,618	41,669	23,551

(1) Net of subrogation and salvages.

C.4 Liquidity Risk

Liquidity risk is the risk that cash may not be available to pay obligations when due, at reasonable cost. The Club is exposed to daily calls on its available cash resources, mainly from claims arising from its insurance operations including its participation in the IG Pool.

Within its risk framework the Board has set limits on the minimum level of cash and liquid funds available to meet such calls and on the minimum level of borrowing facilities that should be in place to cover unexpected levels of claims and other cash demands. Also, proper cashflow matching between fixed income holdings and technical liabilities is always maintained.

In addition to the cash and liquid funds, a significant proportion of the Club's investments are maintained in highly liquid assets which may be converted to cash at little notice or transaction cost or market impact.

C.5 Operational Risk

Operational risks exist in the natural course of business activity like the risks of loss resulting from inappropriate internal processes, people and systems, or from external events.

Key operational risks also include business continuity, regulatory complexity and cyber risk, all of which may hinder the Club's ability to operate effectively.

The Club has a low risk appetite for operational risk and seeks to avoid failures which may result in business disruption, financial loss or regulatory sanctions. The Club has systems and processes in place to identify and monitor operational risk and to ensure exposure is mitigated to an appropriately low level (please reference section B.3 Risk Management System of this report).

Cyber Risk

Cyber risk is an area under ever-increasing scrutiny following high-profile attacks and data losses worldwide and large-scale shifts towards remote work and virtual collaboration. The growing capabilities of cyber-criminals, the sophistication of nation-state affiliated threat actors together with the global dependence on electronic commerce, communications and data storage, are leading to a higher risk of data theft, malicious data interference and service disruption.

Potential damages for the Club resulting from a cyber-attack could be:

- Brand damage: declining business partner confidence and harm to reputation;
- Disruption to critical infrastructure and damage to service provision to clients;
- Theft of funds, data and corporate intellectual property;
- Cost of responding to a breach: clean-up, legal fees, potential lawsuits, forensics and potential fines.

While the Club is not individually viewed as a compelling target for a direct cyber-attack, there is for example a risk of suffering attacks as a member of the global financial services industry.

In order to mitigate this risk, the Club has invested in cyber security technologies and has developed processes and practices designed to secure networks, computers, programs and data from attack, damage or unauthorised access. It includes application security, information and data security, network security, infrastructure resilience, business continuity planning and user education.

Through these controls and protective measures, together with a fully documented and robustly tested business recovery plan, the Club has established an effective IT security control environment which is checked by audit and independent external IT security experts.

C.6 Other Material Risk

Reserving Risk

This is the risk of claims reserves in the balance sheet being understated, i.e. the reserves are insufficient to meet the cost of outstanding claims. The risk arises due to the inherent uncertainty in the ultimate cost, frequency and timing of liabilities incurred, including the provision made for claims that have not so far been notified (incurred but not reported claims).

Members are insured on a loss occurring basis. Review and reporting controls operate so that estimates are established early and maintained to reflect the Club's current best estimate of the likely outcome for each claim. The Club has established clear and stringent estimating guidelines backed by a programme of consistent training to ensure they are applied uniformly. To determine the overall level of reserves held, the Club takes advice from both the internal actuary and external actuaries who use established statistical techniques and apply knowledge, experience and judgement to estimate the most likely overall outcome of liabilities. In this way appropriate reserves are determined to meet claims as they fall due.

Claims developments are monitored monthly and reported to the Services Board as part of the overall risk reporting framework.

At 20 February 2020, the reserves booked in the accounts were:

Group Liabilities	Club consolidated			Club solo		ISRe	
	Solvency II	Market Value basis (1)	Lux GAAP (2)	Solvency II	Lux GAAP (2)	Solvency II	Lux GAAP (3)
Gross Technical Provisions	506,290	555,242	555,242	486,164	555,242	224,318	360,748
Best Estimate	474,382	n/a	n/a	474,423	n/a	206,224	n/a
Risk Margin	31,908	n/a	n/a	11,741	n/a	18,094	n/a
Net Technical Provisions	370,878	416,882	416,882	62,647	72,777	224,318	360,748

- (1) Group liabilities on a Market Value and Lux GAAP basis are identical.
- (2) Lux GAAP technical provisions are net of subrogation and salvages.
- (3) ISRe Lux GAAP technical provisions include its equalisation provision.

C.7 Any Other Information

There is no other significant risk information to be disclosed.

Valuation for Solvency Purposes

In accordance with article 75 of Solvency II Directive 2009/138 and with article 9 of Delegated Regulation 2015/35, assets are valued for solvency purposes at the amount for which they could be exchanged between knowledgeable willing parties in an arm's length transaction, and liabilities are valued at the amount for which they could be transferred, or settled, between knowledgeable willing parties in an arm's length transaction.

Where this methodology differs from the valuation policies used in the Club's financial statements, a specific provision is made in the following section.

The Club's consolidated Solvency II balance sheet has been prepared in accordance with Method 1 (Accounting consolidation-based method) of article 230 of the Solvency II Directive 2009/138.

D.1 Assets

At 20 February 2020 (in USD '000):

	Club consolidated			Club solo		ISRe	
Assets	Solvency II	Market Value basis	Lux GAAP	Solvency II	Lux GAAP	Solvency II	Lux GAAP
Pension benefit surplus	8,294	-	-	8,294	-	-	-
Property, plant and equipment (1)	15,608	2,138	2,138	11,444	-	-	-
Investments (2)	643,643	643,643	597,938	331,819	147,707	367,595	343,497
Reinsurance Recoverables (3)	135,412	138,360	138,360	423,516	482,465	-	-
Insurance Receivables	12,561	51,474	51,474	12,561	51,474	-	-
Reinsurance Receivables	9,345	9,345	9,345	9,345	20,382	-	21,420
Other Receivables (4)	1,891	1,891	1,891	2,845	2,845	367	367
Cash	78,618	78,618	78,618	41,669	41,669	23,551	23,551
Deferred Acquisition costs	-	864	864	-	864	-	-
Other Assets	736	739	739	109	109	7	-
Total	906,108	927,072	881,367	841,602	747,515	391,520	388,835

(1) Excludes properties not held for own use which are reported under investments.

(2) Includes interest accrued on Fixed Income securities, and loans, and unrealised gains on derivatives.

(3) Net of subrogation and salvages.

(4) Excludes unrealised gains on derivatives.

Pension Benefit Surplus

The pension benefit surplus has been valued by an independent actuary in accordance with IAS 19 which requires that the assets of the scheme are valued on a fair value basis and the liabilities of the scheme are recognised when the entity derives the benefit from the employees' service. The principal assumptions underlying the valuations above were:

- Discount rate 1.8%
- RPI inflation assumption 3.0%
- CPI inflation assumption 2.1%
- Limited price indexation pension increases 2.9%

The pension benefit surplus is not included in the balance sheet in the financial statements as it is not required under Luxembourg GAAP.

Leasing Arrangements

The Club occupies offices in several locations, under various operating lease agreements. These agreements have been entered into by several of the Club's subsidiaries.

Under IFRS 16, the present value of the operating lease agreements have been recognised in the Group Solvency II balance sheet, under "Property, plant & equipment held for own use" for the right to occupy office spaces, and under "Payables" for the related future payment obligation. There is no such recognition under Lux GAAP. Operational leases are measured at the present value of the future non-cancellable payments obligations resulting from the lease agreements.

Investments

Equities and bonds valuation (including investment funds) rely on market prices (including accrued interests when applicable) provided daily by the Club's administrative agent and financial data providers.

Investments in collective investments undertakings rely on net asset values provided by financial data vendors, fund's promoters or fund's administrative agents.

This valuation methodology is consistent with the Club's published accounts which are prepared on a market value basis but differs from its Luxembourg GAAP accounts where financial investments are valued at the lower of cost (historic for equities and collective investments undertakings, amortised for fixed income) or market value.

Property is stated at estimated market value, based on an annual valuation by an independent valuer. Likewise, this valuation methodology is consistent with the Club's published accounts which are prepared on a market value basis but differs from its Luxembourg GAAP accounts where property is stated at the lower of amortised historic cost or estimated market value. Under Luxembourg GAAP properties are amortised on a straight-line basis such that they are written down to their residual values over their useful economic lives.

Holdings in related undertakings are valued at their estimated market value. Depending on the local GAAP of related undertakings, the estimated market value is assessed as being the Solvency II excess of assets over liabilities, the local GAAP net equity (if assets and liabilities are valued at market value), or the local GAAP net equity retreated for market value.

Other loans and mortgages are valued at the present value of their future cash flows. Discounting is performed using EIOPA interest rate term structure, excluding volatility adjustment.

Insurance Recoverables

Amounts recoverable from reinsurance contracts take account of the time difference between recoveries and direct payments. The result from that calculation is adjusted to take account of expected losses due to default of the counterparty. That adjustment is based on an assessment of the probability of default of the counterparty and the average loss resulting therefrom (loss-given-default).

Insurance, Reinsurance Receivables & Other Receivables / Other Assets

Receivables and other assets are valued at their recoverable value. Full provision is made for balances considered to be doubtful.

Lux GAAP Insurance Receivables which are not due at the reporting date are reclassified into the future premium cash-flows in the Solvency II Claims Provisions (as explained in section D.2).

Deferred Acquisition Costs

Deferred Acquisition Costs, representing acquisition cashflows already paid but related to unearned premium, are recognised as an asset under Lux GAAP but are not allowable under Solvency II.

D.2 Technical Provisions

At 20 February 2020 (in USD '000):

	Club consolidated			Club solo		ISRe	
Group Liabilities	Solvency II	Market Value basis (1)	Lux GAAP (2)	Solvency II	Lux GAAP (2)	Solvency II	Lux GAAP (3)
Technical Provisions	506,290	555,242	555,242	486,164	555,242	224,318	360,748
Best Estimate	474,382	n/a	n/a	474,423	n/a	206,224	n/a
Risk Margin	31,908	n/a	n/a	11,741	n/a	18,094	n/a

- (1) Group liabilities on a Market Value and Lux GAAP basis are identical.
(2) Lux GAAP technical provisions are net of subrogation and salvages.
(3) ISRe Lux GAAP technical provisions include its equalisation provision.

The Solvency II technical provisions are equal to the sum of the Best Estimate and Risk Margin.

The Best Estimate corresponds to the probability-weighted average of future cash-flows, taking account of the time value of money (expected present value of future cash-flows), using the relevant risk-free interest rate term structure (specified by EIOPA). The cash-flow projection used in the calculation of the Best Estimate takes account of all the cash in- and out-flows required to settle the insurance obligations over the lifetime thereof. This includes all expenses that will be incurred in servicing insurance and reinsurance obligations, and all payments to policy holders and beneficiaries which the Club expects to make. The Best Estimate is calculated gross, with the amounts recoverable from reinsurance contracts projected separately.

The Risk Margin is such as to ensure that the value of the technical provisions is equivalent to the amount that insurance undertakings would be expected to require in order to take over and meet the corresponding insurance obligations. The Risk Margin is calculated by determining the cost of providing an amount of eligible own funds equal to the Solvency Capital Requirement necessary to support the insurance obligations over the lifetime thereof. For that purpose, the Club used the 6% capital cost as prescribed by EIOPA.

The Club does not use any simplified methods in its calculation of the technical provisions.

Claims Provisions

The best estimate claims provisions are calculated using standard actuarial techniques. The claims projection is performed on separate homogenous groups, with Members' attritional claims, Members' large claims and the Club's share of other clubs' pool claims all projected separately. Members' large claims (net of pool) are projected individually with the relevant club reinsurance programmes applied. The claims provision includes an explicit provision for future claims handling expenses.

Premium Provisions

The Club writes the vast majority of its business on an annual basis from noon GMT, 20th February to 20th February each year, however there is a small amount of unearned business written on a 'cross-policy year' basis, i.e. incepting before the 20th of February. At the 20th February the majority of the next year's premium is bound but not incepted, as a result premium provision for the bound but not incepted business and small amount of unearned premium is held. The premium provision is the net expected claims and expense cost for the coming year less the net future premium.

Difference between Solvency II and Luxembourg GAAP

The valuation rules for the technical provisions under Solvency II differ from those under Luxembourg GAAP. The value of technical provisions, under Solvency II, is equal to the sum of the best estimate and the risk margin. The best estimate is based on discounted cash flows. Under Luxembourg GAAP reserves are calculated on an undiscounted basis and there is no requirement for them to be held on a best estimate basis, as a result the Luxembourg GAAP reserves include an element of prudence in line with the risk appetite set by the Club's Board (but no explicit risk margin). There is also no premium provision held for bound but not incepted business under Luxembourg GAAP.

In addition, future premium cash-flows earned within the contract boundaries at the valuation date and which fall due after the valuation date are included in the Solvency II Claims Provisions. Under Luxembourg GAAP, these future premium cash flows are disclosed as Member Debtors and Reinsurance Creditors.

Material Changes

There have been no material changes to the calculation of technical provisions compared to the prior year.

D.3 Other Liabilities

At 20 February 2020 (in USD '000):

	Club consolidated			Club solo		ISRe	
Other Liabilities	Solvency II	Market Value basis	Lux GAAP	Solvency II	Lux GAAP	Solvency II	Lux GAAP
Deferred Tax Liabilities	34,695	-	-	-	-	34,695	-
Insurance, Reinsurance & Other Payables	43,515	33,683	33,683	37,662	64,531	743	743
Total Other Liabilities	78,210	33,683	33,683	37,662	64,531	743	743

Deferred Tax Liabilities

Deferred tax liabilities represent differences in timing between when the tax is recognised in the Club's financial statements relative to when the tax is effective via the tax law of the various jurisdictions in which the Club operates. Whilst the Club does not recognise any deferred tax in its Luxembourg GAAP accounts, the valuation adjustments for Solvency II purposes leads to accounting for future taxation, primarily on the equalisation provision of the Club's Luxembourg reinsurance captive, ISRe.

Deferred tax liabilities are valued at the current tax rate in the applicable jurisdiction.

Reinsurance Payables

The Lux GAAP Reinsurance Creditors which are not due at the reporting date are reclassified into the future premium cash-flows in the Solvency II Claims Provisions (as explained in section D.2).

D.4 Alternative Methods for Valuation

The Club and its subsidiary ISRe do not make use of alternative methods for valuation.

D.5 Any Other Information

There is no other significant valuation information to be disclosed.

Capital Management

The Club has a Medium-Term Capital Management Plan to ensure that the group and its subsidiaries will be able to meet their regulatory and internal capital requirements on a 3-year rolling horizon.

The purpose of the Capital Management Plan is to ensure that, on a forward-looking basis, own funds will be enough to provide a buffer against adverse scenarios. It is consistent with the Business Planning process which is a projection of the premiums, claims, general expenses and investment return.

The Medium-Term Capital Management Plan of the Club is a key component of its ORSA and is reviewed at least annually by the Board.

E.1 Own Funds

At 20 February 2020, the Club's own funds and its subsidiary, ISRe's under Solvency II (USD '000) were:

Own Fund Item	Tier	Club Consolidated	Club Solo	ISRe
Ordinary Share Capital	1	-	-	25,000
Reconciliation Reserve	1	321,608	317,778	106,764
Ancillary Own Funds	2	203,260	203,260	-
Total		524,868	521,038	131,764
Eligible to cover SCR		409,502	375,080	131,764
Eligible to cover MCR		321,608	317,778	131,764

E.1.1 Club Consolidated

The Club does not have share capital and does not issue debt. Its Free Reserve is attributable to its Members. The reconciliation reserve mainly consists of profits carried forward since the inception of the Club. It also includes the group pension scheme surplus valued on an IAS19 basis of USD 8.3 million.

Ancillary Own Funds

(Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

Ancillary own funds are funds which are contingent in that they have not been paid in, and as such, are not recognised on the balance sheet of the insurance undertaking. If at some undetermined point in the future ancillary own funds are called, then they cease to be contingent and become basic own funds items represented by assets on the balance sheet. One critical feature of ancillary own funds is their loss-absorbency.

Under articles 93 and 94 of Solvency II Directive 2009/138, supplemented by articles COF1, 2, 5 and 6, of the Level 2 Implementing Measures and the Technical Specification for the Preparatory Phase (Part I) document, ancillary own funds include any future charge which mutual or mutual-type Clubs of shipowners with variable contributions may have against their Members by way of an unbudgeted supplementary premium contribution known as a "supplementary call" in the case of this Club.

The Club has the right under its rules to charge supplementary calls to its Members. These calls fall within the definition of ancillary own funds described above.

The total amount of Ancillary Own Funds included within the Club's own funds is based upon the methodology approved by the CAA in December 2015, as updated in July 2018. The amount of Tier 2 capital is equivalent to 150% of the Total Estimated Mutual Call. The extent to which the value of the approved ancillary own funds in relation to supplementary calls is eligible to meet the Solvency Capital Requirement is however limited by the Tier 2 regulatory threshold which is currently a maximum of 50% of the SCR.

The methodology approved by the CAA remained valid until 21 February 2020.

Non-Available Own Funds (Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

Based on article 330 of Delegated Regulation 2015/35, the Club recognise the restriction on part of its own funds held in its reinsurance captive "Hydra Insurance Company Ltd. – The West of England Hydra Cell" which cannot be made available to cover the group Solvency Capital Requirement.

The reduction in available capital at group level due to this restriction is reported under QRT S.23.01.04 – R0750.

E.1.2 Club Solo

The Club does not have share capital and does not issue debt. Its Free Reserve is attributable to its Members. The reconciliation reserve mainly corresponds to profits carried forward since the inception of the Club. Although less material, it also includes the surplus of the group pension scheme under IAS19 of USD 8.3 million.

Ancillary Own Funds (Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

The method used by the Club Solo to determine its amount of eligible Tier 2 capital is the same as that described for the Club on a consolidated basis and is equivalent to 150% of the Total Estimated Mutual Call. The cap, which is set at 50% of the SCR, explains the difference with the amount of ancillary own funds eligible to cover the SCR at the consolidated level.

Non-Available Own Funds (Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

There are no non-available own funds to report.

E.1.3 ISRe

ISRe's Tier 1 capital is composed by its share capital issued, fully held by the Club, and by its reconciliation reserve which corresponds to profits carried forward.

Non-Available Own Funds (Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

There are no non-available own funds to report.

E.1.4 Reconciliation Between Free Reserve Per Financial Statements and Solvency II Excess of Assets Over Liabilities

At 20 February 2020 the reconciliation between Free Reserves in the financial statements and Solvency II Excess of Capital over Liabilities is (USD '000):

Own Fund Item	Club Consolidated	Club Solo	ISRe
Financial Statements Free Reserves	292,442	127,742	27,344
Change in valuation in:			
• Pension benefit Surplus / Deficit	8,294	8,294	-
• Property, plant & equipment held for own use	13,470	11,444	
• Investments	45,705	184,113	24,105
• Reinsurance Recoverables (1)	(2,948)	(58,949)	-
• Insurance / Reinsurance Receivables	(38,913)	(49,950)	(21,420)
• Deferred Acquisition Costs	(864)	(864)	
• Technical Provisions (1)	48,949	69,078	136,430
• Deferred Tax Liabilities	(34,695)	-	(34,695)
• Reinsurance Payables	3,638	38,317	
• Payables	(13,470)	(11,447)	
Solvency II Excess of Assets over Liabilities	321,608	317,778	131,764

(1) Net of subrogation and salvages and including Lux GAAP equalisation provision for ISRe

E.2 Solvency Capital Requirement and Minimum Capital Requirement

The SCRs of the Club (consolidated and solo) and ISRe are based on the Solvency II standard formula and do not make use of simplified calculations nor duration-based equity risk assessment.

The Club has always complied with all solvency regulatory requirements during the period under review.

The breakdown of the Club's capital requirement is shown in the following table (USD' 000):

Item	Club Consolidated	Club Solo	ISRe
Market Risk	78,969	73,517	41,268
Counterparty Default Risk	18,482	25,637	8,693
Underwriting Non-Life Risk	141,622	32,392	78,712
Basic SCR	188,610	100,373	102,284
Operational Risk	14,231	14,233	6,187
Adjustment for Deferred Tax	(27,053)	-	(27,053)
SCR	175,788	114,605	81,418
Eligible Own Funds to cover SCR	409,502	375,080	131,764
Solvency ratio	233%	327%	162%
Minimum Capital Requirement	74,545	28,651	34,069
Eligible Own Funds to cover MCR	321,608	317,778	131,764
Minimum Solvency ratio	431%	1,109%	387%

Impact of Transitional Measures

The Club (both on a consolidated and solo basis) and ISRe are not making use of transitional measures.

E.3 Use of The Duration-Based Equity Risk Sub-Module in The Calculation of The Solvency Capital Requirement

The Club and its subsidiary ISRe did not use the duration-based equity risk sub-module in the calculation of the Solvency Capital Requirement.

E.4 Differences Between the Standard Formula and Any Internal Model Used

The Club and its subsidiary ISRe only use the Standard Formula when calculating their Solvency Capital Requirements.

E.5 Non-Compliance with The Minimum Capital Requirement and Non-Compliance with The Solvency Capital Requirement

The Club (both on a consolidated and solo basis) and ISRe have always complied during the year with their respective Minimum Capital Requirements and their Solvency Capital Requirements.
