Executive Summary

The Club is pleased to report a positive operating performance for the financial year 2022/23 with a combined ratio of 96.7%, justifying the actions taken at recent renewals. The Club's overall capital strength remains strong as reflected by the improvement of its solvency II coverage which increased from 163% to 176%, the Free Reserve of USD 230.8m and the BBB+ rating, stable outlook, with Standard and Poor's. With an improved risk profile, a better rating environment and an increased prospective investment return due to higher interest rates, the Club is well positioned to deliver a positive performance into the future.

Net incurred claims for the financial year ending 20 February 2022 were lower in cost than 2020 and 2021. Covid claims reduced significantly, and our Members' claims on prior years developed better than expectations. In addition to the improvements seen from our own Members' claims, the Pool cost was exceptionally benign in Policy Year 2022, although this should not be considered a new norm. This came after four years where there had been a material increase in cost, a trend the market was understandably concerned about. While this was a welcome reduction in cost in 2022, there was however material latent deterioration in the back year Pool development reported by other Clubs, which was most evidenced in 2020 but also in 2019 and 2021.

With inflation at levels not seen since the early 1980s, central banks tightened financial conditions and increased interest rates significantly. This caused fixed income investments to underperform on a mark to market basis and led to a negative 3.6% investment return for the year. Most of these losses are unrealised, and going forward this means the yield of the Club's fixed income investment is significantly higher than at 20 February 2022, which should support higher investment returns in the long-term.

This Solvency & Financial Condition Report ("SFCR") as of 20 February 2023 provides further detail on the capital strength of the Club and its improved Group Solvency II ratio of 176%. The Eligible Own Funds increased from USD 358.0 to 385.1 million and continue to provide a considerable margin over the Group Solvency Capital Requirement ("SCR") of USD 218.6 million.

The Club's solvency position reflects both its financial strength and its moderate risk appetite consistent with the Board's overarching objective of preserving its Members' capital. The capital strength of the Club and its continued commitment to high quality service position it well to meet the increasing requirements of its Membership.

Regulatory Disclosures

This SFCR was approved by the Board of Directors of the Association on 11 July 2023. It has been prepared in accordance with the requirements of the Solvency II Directive and related Delegated Regulation as transposed into the Luxembourg Insurance Law of 7 December 2015. The report covers Business & Performance, System of Governance, Risk Profile, Valuation for Solvency Purposes and Capital Management.

As a single SFCR, this document includes the disclosure obligations of the Club's entities which are subject to Solvency II regulation, both at Group level and Entity level:

- The West of England Ship Owners Mutual Insurance Association (Luxembourg) - Group
- The West of England Ship Owners Mutual Insurance Association (Luxembourg) - Entity
- International Shipowners Reinsurance Company S.A. (hereafter referred as "ISRe")

All monetary figures in the report are in USD '000 unless specified otherwise.

All consolidated accounting figures in the tables in this report are reported both on a Market Value basis¹ and Luxembourg GAAP ("Lux GAAP") basis² while all Solo entity and ISRe financial statements are produced on a Lux GAAP basis only.

¹ The consolidated accounts of the Club are prepared on a market value basis for comparison with other members of the International Group of P&I Clubs.

² Investments on a Luxembourg GAAP basis are valued at the lower of cost and market value.

Business & Performance

A.1 Business

The West of England Ship Owners Mutual Insurance Association (Luxembourg), whose origins date back to the 1830s, is a leading mutual marine insurer providing its worldwide Membership of shipowners, charterers and operators with liability insurance and related services. In addition to providing mutualised protection and indemnity insurance it also safeguards and promotes its Members' interests in other areas of their business by, for instance, providing regular advice and guidance about loss prevention, sanctions or any relevant changes in maritime law and practice.

The Club underwrites primarily P&I risks, operating as one of 12 independent clubs in the International Group of P&I Clubs ("IG") which together provide liability cover for the majority of the world's merchant marine fleet. P&I cover has developed over more than 150 years in response to shipowners needs, to provide coverage and levels of cover substantially unavailable in the traditional marine insurance markets. The Club's market share is over 7% of the IG's mutual P&I premium.

The Club provides cover of approximately USD 8.9 billion per claim but with separate limits of cover for oil pollution of USD 1 billion, USD 2.1 billion for passenger liabilities and USD 3.1 billion for passenger and crew liabilities combined.

The main areas of cover are for liabilities, costs and expenses incurred in respect of:

- Injury, illness or death of seafarers, passengers and others;
- Loss of or damage to cargo;
- Wreck removal;
- Pollution;
- Collision;
- Damage to fixed and floating objects;
- Fines and civil penalties.

The individual club retention remains USD 10 million. In aggregate, the P&I clubs offer cover through a combination of the individual club retention, the International Group Pool, the International Group General Excess of Loss Contract, the Collective Overspill Reinsurance Contract, and the Group Overspill System.

In addition to its core P&I offering, the Club also provides cover for:

- discretionary insurance for legal expenses, also known as Freight, Demurrage and Defence (or "FDD") risks, to complement the P&I insurance of entered vessels;
- Hull and Machinery insurance ("H&M"), insuring against loss of or damage to a vessel's hull and machinery, including Increased-Value, Freight Interest and/or Loss of Hire insurance cover as required;
- War risks insurance, being cover against damage, loss and liabilities from primary war risks normally excluded from standard H&M and P&I policies.

The Club was established in its current form in 1970 when its headquarters were relocated from London to the Grand Duchy of Luxembourg to ensure that the Club would be domiciled in a country with an established international financial centre, a favourable exchange control regime and a stable and beneficial legal system for mutual insurance Clubs.

The Club currently insures 260 fleets, representing 4,770 insured vessels and approximately 96.5 million gross tonnes (all numbers at 20 May 2023).

Since the Club is managed as a consolidated entity, this report has been prepared on a single Group basis. Where it differs from that of the Group, this report also includes information about the Club on a standalone or “Solo” basis and about International Shipowners Reinsurance S.A. (ISRe), a wholly owned reinsurance subsidiary of the Club also domiciled in Luxembourg.

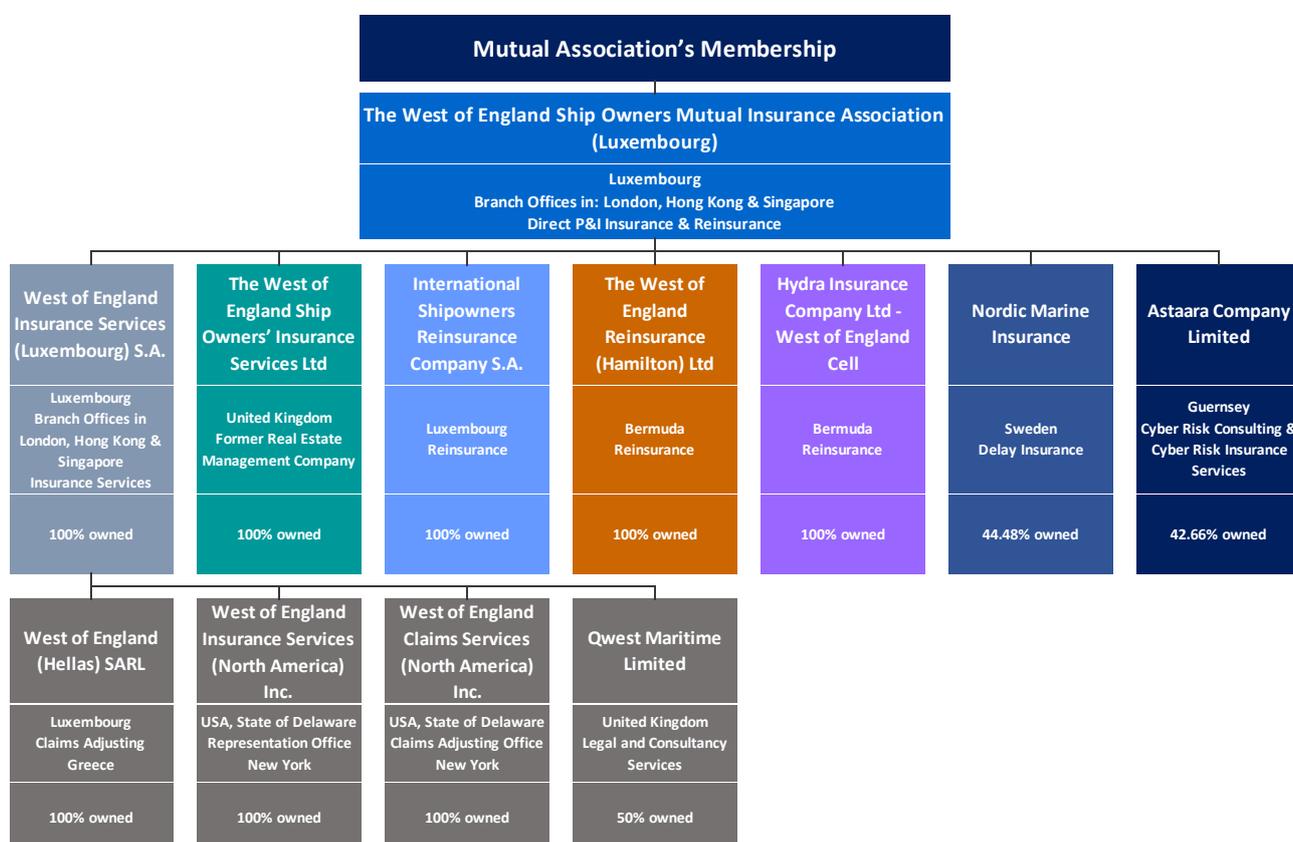

The Club is interactively rated by S&P and maintains a BBB+ rating, stable outlook.

Ownership and Group Structure

This section refers to Guideline 1 in the EIOPA Guidelines on Reporting & Public Disclosure.

As a mutual insurance association, the Club has no share capital and no beneficial ownership. It is owned and controlled by its Members (policyholders) who have voting rights at the Annual General Meeting in proportion to their entered tonnage. Due to the Mutual Insurance Association structure of the Club and the very large number of Members, no Member is considered as a “controlling entity”.

The Group’s structure is as follows:

The West of England Ship Owners Mutual Insurance Association (Luxembourg) is the ultimate holding company within the West of England Group. It acts as primary insurer and risk carrier for all Members and is established in Luxembourg where it is regulated and supervised by the Commissariat aux Assurances (“CAA”). The Club operates worldwide through branches in the UK, Hong Kong and Singapore. Its external auditors are Deloitte, 20 Boulevard de Kockelscheuer, 1821 Luxembourg.

The Club’s branch office activity in the UK is supervised by the Prudential Regulation Authority (“PRA”) and the Financial Conduct Authority (“FCA”). The Hong Kong branch is supervised by the Insurance Authority (“IA”) and the Singapore branch is regulated by the Monetary Authority of Singapore (“MAS”). The Club is also registered as an alien Surplus Line insurer underwriting risks in the U.S. with the National Association of

Insurance Commissioners (NAIC). The Club is passported across the European Union to do business under the Freedom of Services.

The Club has appointed its subsidiary, West of England Insurance Services (Luxembourg) S.A. (“Services” or “the Managers”) with branch offices in London, Hong Kong and Singapore to run its day-to-day insurance operations. Services has a fully owned subsidiary in Luxembourg, West of England (Hellas) SARL (“Hellas”), which acts as a representative office in Piraeus for claims adjusting. It has also established two fully owned subsidiaries in the United States of America, West of England Insurance Services (North America) Inc. which promotes the Club’s interests in North America, and West of England Claims Services (North America) Inc. which assists its parent company in the management of claims in North America.

In addition, the Group has the following wholly owned subsidiaries:

Subsidiary	Purpose
International Shipowners Reinsurance Company S.A. (“ISRe”)	ISRe reinsures 80% of the Club’s net underwriting risks, essentially on a quota-share basis, and manages the investment portfolio on behalf of the group through a pooling mechanism. ISRe is also headquartered in Luxembourg and, as such, regulated and supervised by the CAA.
The West of England Reinsurance (Hamilton) Ltd. (“Hamilton”)	Hamilton, reinsures currently 10% of the business of its parent mainly on a quota-share basis. The Company is headquartered in Bermuda and regulated by the Bermuda Monetary Authority (“BMA”).
A segregated “Cell” in Hydra Insurance Company Ltd. (“Hydra”)	Hydra is a Bermuda based captive reinsurer comprising 13 individual cells, each one owned by one of the Clubs of the IG. Hydra retains a portion of risk under the IG Pool and the Group Excess Loss Reinsurance Programme. It is designed to secure payment by clubs of their contributions to the Pool. Hydra forms part of the reinsurance structure under the IG Pooling Agreement.
The West of England Ship Owners Insurance Services Limited (“Services Ltd”)	This entity used to be the Club’s Management Company in London prior to 2006. It then owned and managed the Club’s property in London (Tower Bridge Court). Since Tower Bridge Court was sold in July 2018, the Company is now effectively dormant and has no activity.

To broaden its product offering and value proposition to its Membership, the Club also invested into strategic partnerships with:

Strategic Partnership	Business
Nordic Marine Insurance (“NMI”)	NMI is a leading independent marine insurance company and provider of niche insurance products to the global maritime industry, with the benefit of strong partnerships with major re-insurers. NMI offers fixed premium insurance specialising in Primary Layer Loss of Earnings, Maritime Lien solutions and other specialised covers for vessels.
Astaara Company Limited (“ACL”)	Astaara is a cyber risk insurance services company dedicated to providing integrated, holistic insurance and risk management solutions for the maritime industry (shipowners, the offshore industry and port operators).
Qwest Maritime Limited (“Qwest”)	Qwest brings together the insurance expertise of the Club and the innovative legal and consultancy skills of C Solutions to offer the maritime industry a suite of tailored products to address those needs. The Company supports ship owners, operators, charterers and other operators in the marine transportation chain across the full voyage lifecycle, from the provision of pre-fixture advice and information through to the post-voyage collection of demurrage and dispute resolution.

Offices and Headcount

As of 20 February 2023, the Club employed 155.1 full time equivalents with the following breakdown:

Location	Description	Primary Functions	Full time equivalents
Luxembourg	Head Office	<ul style="list-style-type: none"> Representation of the Board Compliance, including Solvency requirements, Legal and Company Secretariat Investments 	4
London	Services Branch	<ul style="list-style-type: none"> Underwriting Claims Management Support Functions (Finance, HR, IT) 	87.9

New York	Representative Office / West of England Claims Services (North America) Inc.	<ul style="list-style-type: none"> Claims Management services for North America 	3
Total			155.1

Business Overview

The technical performance of the Club improved significantly last year, and the technical result was a positive USD 8.0 million resulting in a combined ratio of 96.7%.

The Club made the difficult decision in February 2022 to part company with a small number of Members where we did not feel the premium was commensurate for the risk. This action has had an immediate positive effect on the claim's figures, and we expect further benefits in the future. Covid claims, which had explained an important part of the last two years' technical deficits, reduced during financial year 2022/23 which contributed positively to the improvement in operating performance.

The unexpected benign pool activity for policy year 2022 was positive to the performance, but most of that benefit was offset by significant deterioration of previous policy years. The reduced activity in last year was welcome respite for the whole industry and favourably affected our combined ratio. This will mean the IG average combined ratio will be lower this year, although this should not be considered the new norm as we expect Pool claims to return to a more normal level in 2023/24.

Investment markets were challenging and caused the Club's free reserve to fall, the actions of central banks to reduce inflation causing unrealised losses for the Club's fixed income investments but also for other classes due to fears that monetary tightening would send major economies into a recession. The positive correlation between main asset classes meant that despite being conservative and diversified, the Club's investments

returned a negative 3.6% for the year. In capital models such as Solvency II, the impact was mitigated by the asset-liability matching strategy in place which combined with the improved operating performance meant the Solvency II coverage of the Club improved from 163% to 176%.

Going forward, the improved risk profile of the book following the de-risking in 2022, the disciplined approach at renewal 2023 and a further improvement of the premium adequacy support the Club's operating performance. These factors and an improved prospective investment return mean that the Club's capital is expected to strengthen further in the short-term, from an already strong base position reflected by the Club's BBB+ rating with Standard and Poor's (stable outlook) and its 176% Solvency II ratio.

Entity	Solvency II Ratio		Coverage of Minimum Capital Requirement (MCR)	
	2023	2022	2023	2022
Club Consolidated	176%	163%	305%	290%
Club Solo	247%	238%	788%	754%
ISRe	160%	160%	274%	274%

A.2 Underwriting Performance

The following table provides a summary of the Club's Underwriting performance for the financial year ended 20 February 2023 (in USD '000):

	Club Consolidated (Market value basis)		Club Consolidated (Lux GAAP)		Club Solo		ISRe	
	2023	2022	2023	2022	2023	2022	2023	2022
Gross Premium Earned	293,170	266,457	293,170	266,457	293,170	266,457	117,683	134,898
Net Premium Earned	244,683	222,839	244,683	222,839	86,257	51,817	117,683	134,898
Net Incurred Claims	(187,687)	(210,065)	(187,687)	(210,065)	(20,175)	(33,006)	(113,882)	(140,722)
Operating Expenses	(49,019)	(44,867)	(48,861)	(44,712)	(49,244)	(44,525)	(415)	(515)
Net Underwriting Result	7,977	(32,093)	8,135	(31,938)	16,838	(25,714)	3,386	(6,339)
Combined Ratio	96.7%	114.4%						

Gross premium earned for 2022/23 increased by 10.0% to USD 293.1 million, despite a significant reduction in tonnage entered following the de-risking implemented at renewal 2022. The Club's underwriting result was a surplus of USD 8.0 million for the financial year, which resulted in a combined ratio of 96.7% and a significant and continued improvement from the 114.4% reported for financial year 2021/22 and the 139.8% reported for financial year 2020/21 (during which the Club had suffered four pool claims of its own).

A.3 Investment Performance

The Club's investment portfolio returned -3.5% or USD -24.7 million for financial year 2022/2023. Including exchange revaluation on other balance sheet items, amortisation of goodwill and contribution of strategic partnerships, the consolidated investment return was a negative USD 28.6 million. The trend for the financial year 2022/23 was driven by monetary tightening globally resulting from an extraordinary high inflation environment. Major central banks such as the FED, the ECB and the BOE remained committed to their primary mission of providing price stability and increased interest rates gradually but sharply during the year. The yield for a 3 year U.S. Treasury, representative of the duration of the Club's technical liabilities, rose from 1.68% on 20 February 2022 to 4.31% on 20 February 2023. It was as low as 0.2% at 20 February 2021.

The Club's fixed income investments suffered from this rising rate environment on a market value basis and the liability-matching portfolio dropped 4.1% during the year. Within this portfolio, the sub-portfolios with longer duration and credit exposure suffered more, while shorter duration portfolios outperformed.

Listed Equities ended the financial year with a loss of 5.6%, having partly recovered from a trough of 19.8% mid-October 2022. The allocation to illiquid investments contributed positively to the portfolio return with an annual gain of 0.9%. Real Estate investments delivered satisfactory returns, but the trend changed during Q4 with valuations starting to adjust to higher interest rates. Infrastructure posted solid gains while opportunistic strategies underperformed due to lower valuation multiples.

The Club's investment strategy remains driven by the longer-term objective of maintaining low volatility, appropriate liability matching and therefore overall stability of the capital position. The portfolio remains primarily invested in high quality and liquid securities.

As at 20 February 2023, the market value of the Club's financial assets was USD 746 million (2022 USD 730 million). The portfolio structure and net returns were as follows:

	Weight		Net Return	
	2023	2022	2023	2022
Contingency Cash portfolio	14.0%	9.6%	-0.6%	-1.1%
Liability Matching portfolio	69.2%	65.1%	-4.1%	-2.5%
Growth portfolio - Liquid	9.3%	17.9%	-6.6%	+3.6%
Growth portfolio - Illiquid	7.5%	7.4%	+0.9%	+14.0%
Total	100%	100%	-3.5%	-0.3%

Net investment returns of financial assets, by portfolio and by entity were as follows:

	Club Consolidated (Market value basis)		Club Consolidated (Lux GAAP)		Club Solo		ISRe	
	2023	2022	2023	2022	2023	2022	2023	2022
Contingency Cash Portfolio	-0.6%	-1.1%	-0.3%	-0.9%	-0.1%	-0.3%	-0.8%	-2.0%
Liability Matching Portfolio	-4.1%	-2.5%	-3.7%	+0.9%	-3.7%	+0.9%	-3.7%	+0.9%
Growth portfolio - Liquid	-6.6%	+3.6%	+12.2%	+3.2%	+12.9%	+3.2%	+12.1%	+3.2%
Growth portfolio - Illiquid	+0.9%	+14.0%	+2.3%	+4.1%	+2.3%	+4.1%	+2.3%	+4.1%
Total	-3.5%	-0.3%	-0.7%	+1.4%	-0.6%	+1.0%	-0.8%	+1.4%

A.4 Performance of Other Activities

The Club, on a consolidated basis, and ISRe did not record any material gains or losses resulting from other activities during the financial year ended 20 February 2023.

Please reference section D1 Leasing Arrangements in relation to Guideline 2 of the EIOPA Guidelines on Reporting & Public Disclosure.

A.5 Any Other Information

Overall Performance

The combination of underwriting performance and investment return generated an overall deficit of USD 20.3 million (2022 deficit of USD 40.1 million). The breakdown of the Income & Expenditure result by entity is as follows (in USD '000):

	Club Consolidated (Market value basis)		Club Consolidated (Lux GAAP)		Club Solo		ISRe	
	2023	2022	2023	2022	2023	2022	2023	2022
Underwriting Result	7,977	(32,093)	8,135	(31,938)	16,838	(25,714)	3,386	(6,339)
Investment Return	(28,566)	(7,140)	(9,496)	3,890	(2,899)	(3,728)	(3,149)	6,743
Taxes	273	(859)	273	(859)	620	(358)	(237)	(404)
Surplus / (Deficit)	(20,316)	(40,092)	(1,088)	(28,907)	14,559	(29,800)	-	-

System of Governance

B.1 General Information on System of Governance

Board of Directors

The Club, like most P&I Clubs, operates on a mutual basis. A significant feature of the mutual structure is that the Club's policyholders are also its sole and ultimate economic stakeholders.

The Club's Board and committees comprise only Non-Executive Directors: Member Directors and Independent Directors representing specific areas of expertise.

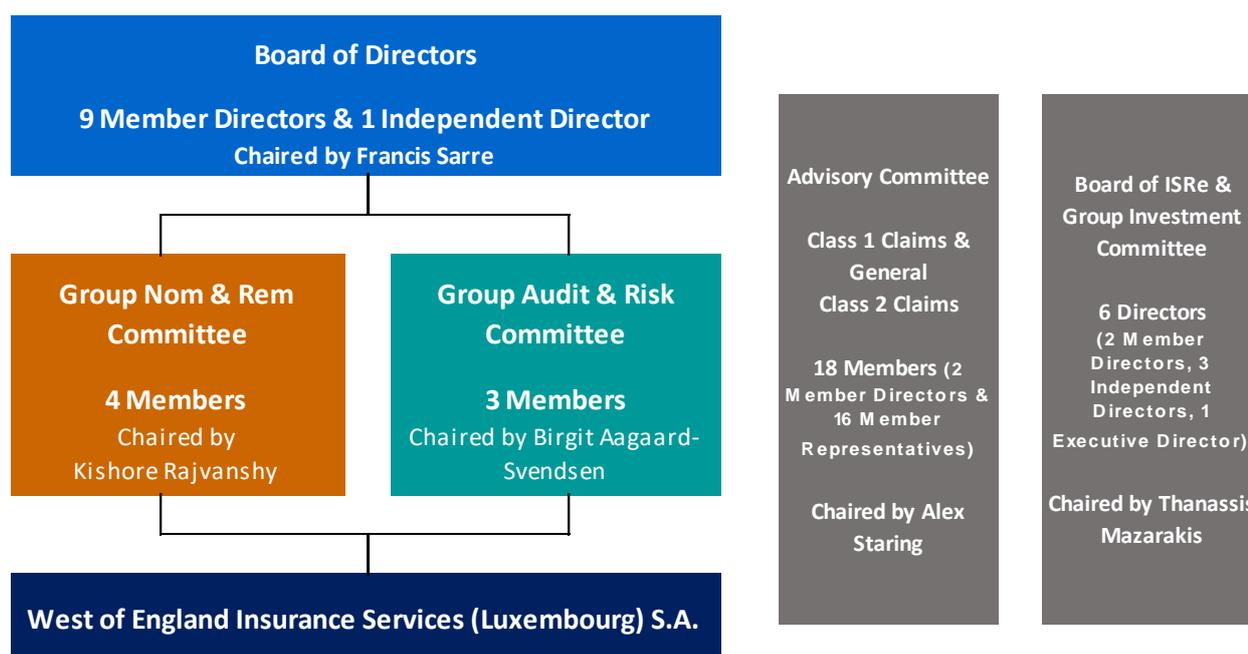

The Club's Board currently has 10 Non-Executive Directors, 9 drawn from the Membership of the Club (Member Directors) and 1 independent (the former CFO of a listed shipping company). These Directors represent the mutual interests of the Club and come from a broad range of backgrounds and regions, mainly within operational, legal and financial disciplines.

The Board governs through a Committee structure consisting of the following committees:

- A Group Nomination & Remuneration Committee: currently 4 Member Directors;
- A Group Audit & Risk Committee: currently 1 Independent Director (as Chair of the Committee) and 2 Member Directors;
- An Advisory Committee: currently 18 members, 2 Member Directors and 16 representatives of the Membership.

The Club's governance structure, including the terms of reference of the various committees is described in the Constitution and in the Corporate Governance Charter.

The investment strategy, investment risk and ex-post supervision of the investment portfolio are performed through the Board of ISRe acting as the Club's Group Investment Committee. The Board of ISRe is currently composed of 6 Directors: 2 Member Directors including the Chair of the Club's Board, 3 Independent Directors, including the Chair of the Group Audit & Risk Committee, and 1 Executive Director.

The Board of West of England (Hamilton) has currently 3 Directors, including 3 Member Directors.

The Club's Board and Committees meet at least four times a year to conduct and monitor business, except the Advisory Committee, which meets two times a year. The Board is responsible for deciding business and financial strategy and controlling results against objectives. This includes risk tolerances, solvency and capital adequacy, underwriting objectives, reinsurance programme, and investment strategy.

The Club's Board also reviews and approves the Risk Management framework, the Own Risk and Solvency Assessment (ORSA) and all relevant corporate policies.

The Club's Board relies on the Managers of West of England Insurance Services (Luxembourg) S.A. to execute the strategy and business plan and to manage the Club's business on a day-to-day basis.

The Club's Managers

Services is responsible for the Club's day-to-day operations through its branches and according to a Management Agreement signed with its Parent Association. This comprises negotiating policy renewals and the underwriting of new business, claims adjusting and claim handling, reinsurance negotiation and management, risk management, business continuity, internal control, finance, and all other aspects of technical operations.

The Club is unusual in that its management company is a wholly owned subsidiary, whereas for a majority of other clubs it is a profit-making third-party partnership or company. This aspect of the Club's structure enhances corporate governance by providing closer ties and total alignment of interest between the Members and their Managers.

Services' Board meets monthly at which key financial and business data as well as compliance topics are reviewed while risk tolerances and indicators are reviewed quarterly by a Risk Committee.

Services' structure consists of six main functions operating across its geographical locations, each headed by a Director or Directors reporting to the Chief Executive Officer ("CEO") and Services' Board.

These functions are:

- Operations & Business Continuity, including IT;
- Underwriting, including Loss Prevention;
- Claims Management;
- Finance, including the Actuarial Function, Data Quality and Risk Management;
- Compliance;
- Maritime Regulation, IG, Standards and Corporate Matters.

Remuneration Policy

Non-executive Directors are remunerated on a fixed fee basis, including Board and Committee meetings attendance. The level of fees is reviewed annually by the Nomination & Remuneration Committee. The attendance schedule of Directors is reviewed at every Board meeting.

Pursuant to the Club's Remuneration Policy, the Group Nomination & Remuneration Committee also reviews and reports to the Board in the setting of objectives for the Services CEO and other Directors, evaluating their performance and making recommendations in respect of their remuneration.

Services staff are remunerated in a way which incentivises both individual and Club performance but in a way which ensures that risk-taking continues to be within the risk appetite measures set by the Board. Remuneration remains heavily weighted to fixed salary but also includes a bonus scheme and staff are entitled, inter alia, to pension scheme and healthcare benefits.

B.2 Fit & Proper Requirements

The Club's policy is to ensure that the persons who effectively run the business or have other key functions in the organisation are 'fit'. For that purpose, the Club ensures that there is appropriate diversity of qualifications, skills and experience so that the Club and its subsidiaries are managed and overseen in a professional manner.

The Club also ensures that those persons running the business or having key management responsibilities are 'proper' by assessing their honesty, integrity and reputation.

The Fit and Proper policy is designed to assess the 'fit and proper' status of key individuals whether Directors or senior managers of the Club. It reflects the EIOPA guidelines on the system of governance issued in the context of the implementation of Solvency II³.

The policy applies to the Administrative, Management or Supervisory Body (AMSB) of the Club and its subsidiaries which represents the persons running the business:

- All new Directors (executive, non-executive and independent Directors) appointed to the Board of the Club or its subsidiaries;
- All existing Directors (non-executive and independent Directors) of the Club or its subsidiaries;
- The General Manager of the Club.

It also applies to the CEO of Services and officers in charge of the Four Key Functions:

- Chief Actuary;
- Risk Manager;
- Compliance Manager;
- Internal Auditor.

B.3 Risk Management System Including the Own Risk & Solvency Assessment (ORSA)

The Association has established a management process for Risk Management ("RM") as part of its second line of defence. RM is currently under the responsibility of the Head of Risk and Chief Actuary and performed by the Risk Analyst.

The RM policy is set by the Club's Board and monitored on its behalf by the Group Audit & Risk Committee at every meeting. Day-to-day implementation and executive oversight are performed by the Managers' Board and its executive Directors through a dedicated Risk Committee coordinated by the Head of Risk and Chief Actuary and the Risk Analyst.

³ Reference: EIOPA-BoS-14/253.

Key roles and responsibilities within the RM framework are defined as follows:

Stakeholder	Role & Responsibilities
Club's Board	<ul style="list-style-type: none"> • Approve RM policy statement and framework; • Determine the Club's strategy and risk appetite, based on an understanding of the strategic challenges and related risks facing the Club.
Club Board's Group Audit & Risk Committee (Group Audit & Risk Committee or GARC)	<ul style="list-style-type: none"> • Review the scope and effectiveness of RM; • Promote a risk aware culture; • Propose risk appetite and tolerances. Monitor actual risk against agreed thresholds and benchmarks, note exceptions and corrective actions proposed by Managers and Internal Auditor; • Monitor emerging risks; • Report on breaches or changes in methodology to Club's Board; • Note corrective actions proposed by External and Internal Auditors.
Head of Risk and Chief Actuary & Risk Analyst	<ul style="list-style-type: none"> • Lead the RM policy and chair the Manager's Risk Committee; • Implement and operate the RM process for the identification, assessment, management, reporting and monitoring of risks, including the cascading of risk tolerances and identification of other relevant benchmarks; • Embed the RM process into the Club and its decision making process; • Monitor actual risk against tolerances, report to the Risk Committee and Group Audit & Risk Committee on breaches; • Collect views and intelligence on emerging risks; assess emerging risks.
Managers' Risk Committee (Head of Risk and Chief Actuary, Risk Analyst, Underwriting Director, CEO, Claims Director, CFO, and General Manager)	<ul style="list-style-type: none"> • Update, propose to the Group Audit & Risk Committee and oversee implementation of the RM policy and framework; • Review risk areas and risk exposure, monitor progress and report breaches against tolerances and limits; • Review the Risk Events Log and breaches of risk appetite; • Identify and assess emerging risks.
Internal Auditor	<ul style="list-style-type: none"> • Conduct independent reviews, follow-up progress plans and present findings to the Group Audit & Risk Committee; • Report to the Group Audit & Risk Committee; • Report on emerging risks.

Risk Register

The Managers' Risk Committee has identified and assessed several risks relating to the Club's business and operating environment. These risks have been formalised in a Risk Register, which is regularly reviewed by the Risk Committee, by the Group Audit & Risk Committee and by the Club's Board. Additionally, any significant change to the Risk Register must be approved by the Group Audit & Risk Committee and subsequently the Club's Board.

The Risk Register identifies and includes the following topics:

- A description of each risk and business area impacted.
- The Risk Owner responsible for monitoring and managing a risk area.
- "Gross (inherent) risk rating": inherent probability and potential impact or severity of a risk.
- Controls mitigating cause, probability and severity of each risk, and Control Owner (who can be different from the Risk Owner).
- "Net (residual) risk rating": level of risk, after mitigating controls in place.

- “Target net risk rating”: desired level of net (residual) risk.

The Risk Register, developed in accordance with the RM framework, is formally reviewed at least annually by Risk Owners and quarterly by the Managers’ Risk Committee. A self-assessment of effectiveness and implementation of controls is also performed annually, or every time a new control is introduced.

Relevant information to assess risks and mitigation processes may include the findings of the Internal Auditor’s reports as well as risk events that have arisen in the course of the business, within the Club or within the industry. The Managers’ Risk Committee maintains a Risk Events Log, which records occurrences that actually or potentially affect the business. Alongside this information are details of the actions identified to remedy the matter in the short and longer term.

The Club’s risks have been assessed in terms of their impact and probability, on both an inherent and residual (i.e., after mitigation) risk basis. The combination of potential impact and estimated frequency of occurrence on a 1-year horizon provides the gross assessment of each risk or category of risk. After accounting for mitigating controls, the gross risk position translates into a net risk position whose impact and/or frequency is normally lower and close to the desired level of exposure.

In addition, the Club monitors emerging risks on an on-going basis to assess these in terms of both their potential timing and likely impact on the Club’s business.

The Solvency Capital Requirement (SCR) calculated under Solvency II is another significant component of the RM framework. It is based on the Standard Formula which relies on different risk modules. The volatility of each of these risk modules determines the amount of capital to be held by the Club to maintain an appropriate immediate and prospective solvency position. The volatility of each risk module (e.g. Underwriting Risk) has been determined by assessing the historic volatility across a wide range of European insurers.

Own Risk & Solvency Assessment (“ORSA”)

The Board of the Club has approved an Own Risk & Solvency Assessment (ORSA) policy.

ORSA is an integral part of the Business Planning and Risk Management processes of the Club. As such ORSA has become a critical internal tool for the Club and its Board to:

- Assess the Club’s overall risk appetite against both capital strength and strategic objectives;
- Assess key decisions and allocate available capital accordingly;
- Ensure that the future capital position of the Club does not deteriorate beyond risk tolerance.
- Identify remediations in case of a stress scenario and significant deterioration of the solvency position.

The ORSA is prepared by the General Manager and senior management of Services and approved by the Club’s Board which has ultimate responsibility for its completion. It is updated annually or anytime a material change in the market or the business of the Club occurs.

With reference to **Guideline 4** of the **EIOPA Guidelines on Reporting & Public Disclosure**, the Club does not use an internal model, even partial, for calculating its Solvency II capital requirements.

Compliance Function

The Compliance Function as second line of defence is performed in accordance with Article 46(2) of the Solvency II Directive 2009/138 and Article 270 of the Delegated Regulation 2015/35, and with relevant international regulations or advisories on key matters such as commercial and financial sanctions.

The role of Compliance is to protect the Club, its Members, its employees and other stakeholders by ensuring and fostering a culture of adherence to regulatory requirements through training, policies and procedures as well as relevant reporting.

The owner of the Compliance Function is the Club's General Manager. He is supported by a Compliance Manager operating across the jurisdictions in which the Club operates.

A Compliance Risk Assessment and a Compliance Plan are reviewed and approved by the Group Audit & Risk Committee annually. A Compliance Register is maintained by the Compliance Manager to record incidents or potential issues and to follow-up actions taken. A Compliance Dashboard is reviewed monthly by the Management Board and by the Group Audit & Risk Committee at every meeting.

More than ever, sanctions continue to be considered by the Managers and the Board as the highest Compliance risk in the P&I and shipping industries. Specific procedures, tools and training have been designed and implemented to mitigate this risk as much as possible.

B.4 Internal Control System

There is a robust internal control system in place within the Club, formalised in the Club's procedures and policies. These procedures and policies are regularly reviewed and are available to the staff on the Club's intranet.

The management structure in place guarantees a robust review process (four eyes principle), which is challenged both by internal and external auditors.

The three lines of defence approach to risk management, explained in sections B.3. and B.5., is an integral part of the Club's internal control environment.

B.5 Internal Audit

The Internal Audit Function acts as the third line of defence.

Every year the Club performs an Internal Audit Plan in accordance with its terms of reference. The Internal Audit Plan is reviewed and approved by the Club's Group Audit & Risk Committee.

Follow up from previous internal audits is also reviewed by the Group Audit & Risk Committee at each meeting.

The Internal Audit Function is outsourced to an Accounting and Advisory Firm, BDO who have extensive experience in working with IG clubs and the wider insurance market for both internal and external audits and consultancy. BDO reports directly to the Chair of the Group Audit & Risk Committee.

B.6 Actuarial Function

The Actuarial Function is part of the second line of defence.

The owner of the Actuarial Function is the Club's Head of Risk and Chief Actuary, who reports to the Chief Financial Officer. The Head of Risk and Chief Actuary is a Fellow of the Institute and Faculty of Actuaries. The internal actuarial team includes another qualified actuary as the Head of Reserving. The robustness of the Actuarial Function is ensured both through rigorous internal processes and comparisons with independent projections provided by an external consulting firm.

The Actuarial Function is responsible for coordination and review of the Club’s technical provisions, providing an opinion on underwriting policy, reinsurance policy and contributing to the risk management system. An Actuarial Function Report on these matters is provided to the Group Audit and Risk Committee on an annual basis.

B.7 Outsourcing

The Club relies on several service providers. For that purpose, the Club has issued an Outsourcing Policy to ensure outsourcing risks are properly managed and that the level of services is in line with required standards.

There is a senior manager or a key function holder responsible for each outsourced service.

Some of these outsourced services fall within the scope of the Solvency II Directive:

Service	Provider	Geography	Scope
Intra-Group Outsourcing	West of England Insurance Services (Luxembourg) S.A.	Luxembourg UK Hong Kong Singapore Greece United States of America	Day-to-day management of the Club outsourced to the Services Company
Internal Audit	BDO	Luxembourg UK Hong Kong Singapore Greece	Internal audit
Investments	Brown Brothers Harriman	Luxembourg	Investment accounting and compliance
Investments	PIMCO Colchester AXA IM	USA UK USA	Bond portfolios managers (segregated accounts)
IT Development	Spark! Data Systems	UK	Application development, maintenance and support

B.8 Any Other Information

There is no other significant governance information to be disclosed.

Risk Profile

Risk assessment and risk mitigation are at the core of P&I insurance business. Risk exposure is mitigated through appropriate processes and controls, stress testing as well as capital buffers.

All risks relevant to the Club's business and its operations are assessed and reviewed within the ORSA process.

C.1 Underwriting Risk

The Club's underwriting objective is to charge premiums that reflect the risks it insures and the strategic objective to maintain a Combined Ratio lower than 100% on a three-year rolling basis. The principal risk for any insurer is that the frequency and value of insured losses exceed expectations.

The Board sets an Underwriting strategy which determines how the Club accepts and manages new and renewing insured risks. This strategy ensures that insured risks are diversified, for example by vessel type and geographical area, to ensure a sufficiently large and diverse population to reduce the variability of the expected outcome of insured losses.

Diversification of underwriting across categories of vessels and regions is evidenced in the next two tables:

Bulkers	Tankers (inc. LPG / LNG)	Containerships	MPV / General Cargo	Passenger	Specialist Vessels & Misc.
42%	38%	7%	10%	1%	2%

Asia	Middle East / Africa	Americas	Greece	Other Europe
47%	9%	3%	21%	20%

Underwriting risk is considered both at individual fleet level and from a portfolio management perspective, where insured risks are assessed in the light of historical experience and future exposure. To assist the process of pricing and managing underwriting risk the Managers routinely perform a range of activities including:

- Documenting, monitoring and reporting on the Club's strategy to manage risk;
- Monitoring legal developments and amending the terms of entry when necessary;
- Reviewing market and financial conditions of the industry;
- Using underwriting tools to assist in the assessment and pricing of risk.

The Club's insurance contracts include terms that operate to contain losses, such as deductibles being matched to the risk profile.

Reinsurance significantly mitigates the risk of exposure to large individual claims, both at the Club's retention level and at the International Group level through the IG Pooling Agreement whereby for policy year 2023 individual claims above USD 10 million are pooled among the 12 clubs up to USD 100 million and reinsured outside the Pool above USD 100 million.

Premiums earned net of reinsurance cost are as follows:

Entity	Gross Premium Earned (USD '000)	Net Premium Earned (USD '000)
Club Consolidated (Market value basis)	293,170	244,683
Club Consolidated (Statutory)	293,170	244,683
Club Solo	293,170	86,257
ISRe	117,683	117,683

With specific reference to Guideline 5 of the EIOPA Guidelines on Reporting & Public Disclosure the Club does not use Special Purpose Vehicles to transfer risk to investors.

C.2 Market Risk

Market or Investment Risk is the risk of an unexpected loss or a significant deviation from the forecast investment return resulting from a material change in the valuation of equity and/or bond markets, and which would materially affect the Club's capital position. Investment risk also includes the negative effects of potential mismatches between assets and technical liabilities.

The Club follows the Prudent Person Principle and has a conservative approach to its financial investments.

The Club's investments are controlled by its Investment Policy and Investment Managers' Guidelines, including minimum credit ratings. The policy and guidelines are regularly reviewed and approved by the Board of the Club.

The risk tolerance appetite, calibrated primarily through financial stress scenarios, is also approved by the Club's Board on advice from the Board of ISRe acting as an Investment Committee. In addition to the risk tolerance, diversification across markets and securities is also a key risk mitigator.

An Investment Advisory Committee comprising qualified independent Directors and internal staff, including the General Manager and CFO, meets regularly to review the portfolio and markets and to make sure investment risk remains within tolerance.

A review of performance and portfolio risk is performed by the investment team at least weekly and reported to the managers. The Board of ISRe and the Board of the Club review the risk, investment return and structure of the portfolio at every meeting.

The portfolio is structured in three sub-portfolios, each of them with specific objectives:

Contingency Cash portfolio

This portfolio represents the Club's cash liquidities necessary to the day-to-day business operations, including a liquidity buffer set in the Club's "Risk and Appetite Indicators". In addition, this portfolio includes cash collateral provided to third parties as part of the Club's operations.

Liability-Matching portfolio

The objective of this portfolio is to guarantee the timely payment of claims, and to provide an additional return in excess of the liability proxy benchmark (or risk-free asset) by having a moderate credit and duration exposure.

Growth portfolio

This portfolio is invested in financial assets being held to generate an excess return, but not for liquidity or liability matching purpose. This portfolio represents the main part of the Club's Free Reserves. It is invested in a diversified way in liquid and illiquid assets (e.g., real estate, infrastructures, private debt) across markets according to the Prudent Person Principle. The Growth portfolio is the main driver for increasing or decreasing the risk/return profile of the overall Investment portfolio.

The Club has a limited exposure to Equity markets of some 10% of the investment portfolio, held in the Growth portfolio. Cash and Fixed Income are managed cautiously and most of the Bond portfolio aims at replicating the cash flow features of technical liabilities. Diversification across asset classes, regions and securities is an important feature of the Club's investment philosophy and a natural way to mitigate market risks in the medium term.

All equities and bonds are held by a global custodian whose role is also to reconcile cash and security positions with the investment managers, to control the compliance with the Investment Managers' Guidelines and to produce valuation and accounting reports.

At least once a year, management meets with the external investment managers individually as part of the on-going due-diligence process.

Property Risk

The risk of financial loss as the result of owning a property investment arises mainly from changes in valuation, but also from potential loss of rental income, legal / technical issues, and from potential "fire sales" due to the inherent illiquidity of such assets.

At 20 February 2023, the Club wholly owns a residential property in Hong Kong and is invested in Real Estate and Infrastructure investment funds within its Growth portfolio.

Property risks are mitigated by applying a cautious valuation policy, and by investing in Core strategies through commingled investment vehicles providing a solid diversification across geographical areas and segments of the Real Estate market.

The underlying currency risk of holding properties investments is fully integrated in the Club's currency management process (please refer to the next section).

Currency Risk

Currency risk is the risk that the underlying currencies of the Club's investments and other assets do not match those of the Club's total liabilities. Whilst the Club's technical liabilities arise in many different currencies, they are recorded and estimated in both the underlying currency and a USD equivalent. The individual claims estimates are reviewed to reflect currency movements in accordance with a timetable prescribed by the Club's managers and periodically management recalculate the overall position. Analysis of the overall liabilities by currency forms the basis of the investment currency ranges specified in the Investment Policy. In addition, the Board assesses the currency risk relating to the excess / shortage of non-USD assets (whether investments or not) held compared to the Club's technical and other liabilities. The Board regularly monitors the overall currency exposure in the balance sheet and ISRe management has authority to enter into forward currency contracts in order to adjust the position within the prescribed ranges.

The Club maintains a benchmark currency profile for investments which approximates to the currency exposure within its claims liabilities so that currency movements are effectively hedged. Despite the difficulty in determining currency exposure accurately, by monitoring historical payment patterns and recording the currency exposure within case estimates, it is possible to determine a measure of the risk and therefore the effectiveness of the currency hedge.

C.3 Credit Risk

The Club has exposure to counterparty default risk, which is the risk that a counterparty will be unable to pay amounts in full when due.

Key areas of exposure to counterparty risk include:

- Counterparty credit with respect to cash and cash equivalents, and investments (including deposits and derivative transactions);
- Reinsurers' share of insurance liabilities and amounts due from reinsurers in respect of claims already paid, including amounts due from other Group Clubs through the IG Pool;
- Amounts due from Members.

The Club manages the counterparty risk by placing and regularly reviewing limits on its exposure to third parties within the overall risk tolerance framework. The creditworthiness of reinsurers is reviewed before placements are made and monitored regularly thereafter. This includes IG processes to ensure the appropriateness of reinsurers on the IG excess loss programme. Controls exist within the IG to maintain the strength of the IG Pool; the Pool itself mitigates the risk of large claims and the structure of Hydra protects each Club from the risk of the default by one of the other Clubs.

There is no significant concentration of credit risk related to receivables as the Club has a large number of internationally dispersed ship owner and charterer Members. No single Member is sufficiently material to represent a high-risk credit exposure. The Club's Rules provide significant contractual rights to safeguard the Club's position and reduce its exposure to the consequences of default or partial payment.

Full provision is made for balances considered to be doubtful. This applies to reinsurance and insurance counterparties, intermediaries, Members, and banks.

Exposure by category of recoverables as of 20 February 2023 was (all figures expressed in USD '000):

Type of Counterparty	Club Consolidated (Market Value basis)	Club Consolidated (Lux GAAP)	Club Solo (Lux GAAP)	ISRe (Lux GAAP)
Reinsurance Recoverables	163,543	163,543 (1)	604,998 (1)	-
Reinsurance Debtors	10,508	10,508	10,493	35,790
Membership Recoverables	48,650	48,650	48,650	-
Other Debtors	2,500	2,500	4,204	422
Banks	107,582	107,582	90,354	9,788

(1) Net of subrogation and salvages.

C.4 Liquidity Risk

Liquidity risk is the risk that cash may not be available to pay obligations when due, at reasonable cost. The Club is exposed to daily calls on its available cash resources, mainly from claims arising from its insurance operations including its participation in the IG Pool.

Within its risk framework the Board has set limits on the minimum level of cash and liquid funds available to meet such calls and on the minimum level of borrowing facilities that should be in place to cover unexpected levels of claims and other cash demands. Also, proper cashflow matching between fixed income holdings and technical liabilities is always maintained.

In addition to the cash and liquid funds, a significant proportion of the Club's investments are maintained in highly liquid assets which may be converted to cash at little notice or transaction cost or market impact.

C.5 Operational Risk

Operational risks exist in the natural course of business activity like the risks of loss resulting from inappropriate internal processes, people and systems, or from external events.

Operational risk is a category of risk which is assessed by the Club to be not rewarded. As such, the Club has a low risk appetite for operational risk and seeks to avoid failures which may result in business disruption, financial loss or regulatory sanctions. The Club has systems and processes in place to identify and monitor operational risk and to ensure exposure is mitigated to an appropriately low level (please reference section B.3 Risk Management System of this report).

Key operational risks also include business continuity and disaster recovery plan, regulatory and compliance complexity, and cyber risk, all of which may hinder the Club's ability to operate effectively.

There has been limited impact on the operations of the Club from the Covid-19 pandemic. Staff have been able to work from home with no disruption immediately when the lockdowns started, demonstrating the resilience of the Club's business continuity plan.

Cyber Risk

Cyber risk is an area under ever-increasing scrutiny following high-profile attacks and data losses worldwide, and large-scale shifts towards remote work and virtual collaboration. The growing capabilities of cyber-criminals, the sophistication of nation-state affiliated threat actors together with the global dependence on electronic commerce, communications, and data storage, are leading to a higher risk of data theft, malicious data interference and service disruption.

Potential damages for the Club resulting from a cyber-attack could be:

- Brand damage: declining business partner confidence and harm to reputation;
- Disruption to critical infrastructure and damage to service provision to clients;
- Theft of funds, data and corporate intellectual property;
- Cost of responding to a breach: clean-up, legal fees, potential lawsuits, forensics and potential fines.

While the Club is not individually viewed as a compelling target for a direct cyber-attack, there is for example a risk of suffering attacks as a member of the global financial services industry. Also with the more visible/targeted global organisations tightening cyber security protocols, criminals are starting to target less obvious/visible organisations especially those with easy access points/low cyber security protocols.

In order to mitigate this risk, the Club has invested in cyber security technologies and has developed processes and practices designed to secure networks, computers, programs and data from attack, damage or unauthorised access. It includes application security, information and data security, network security, infrastructure resilience, business continuity planning and user education.

Through these controls and protective measures, together with a fully documented and robustly tested business recovery plan, the Club has established an effective IT security control environment which is regularly checked by audit and independent external IT security experts.

C.6 Other Material Risk

Reserving Risk

This is the risk of claims reserves in the balance sheet being understated, i.e. the reserves are insufficient to meet the cost of outstanding claims. The risk arises due to the inherent uncertainty in the ultimate cost, frequency and timing of liabilities incurred, including the provision made for claims that have not so far been notified (incurred but not reported claims).

Members are insured on a loss occurring basis. Review and reporting controls operate so that estimates are established early and maintained to reflect the Club's current best estimate of the likely outcome for each claim. The Club has established clear and stringent estimating guidelines backed by a programme of consistent training to ensure they are applied uniformly. To determine the overall level of reserves held, the Club takes advice from both the internal actuaries and external actuaries who use established statistical techniques and apply knowledge, experience, and judgement to estimate the most likely overall outcome of liabilities. In this way appropriate reserves are determined to meet claims as they fall due.

Claims developments are monitored monthly and reported to the Services Board as part of the overall risk reporting framework.

At 20 February 2023, the reserves booked in the accounts were (all figures expressed in USD '000):

Group Liabilities	Club consolidated			Club solo		ISRe	
	Solvency II	Market Value basis (1)	Lux GAAP (2)	Solvency II	Lux GAAP (2)	Solvency II	Lux GAAP (3)
Gross Technical Provisions	573,864	738,053	738,053	553,856	738,053	236,905	364,127
Best Estimate	534,712	n/a	n/a	533,101	n/a	217,451	n/a
Risk Margin	39,152	n/a	n/a	20,755	n/a	19,454	n/a
Net Technical Provisions	474,701	574,510	574,510	127,828	133,055	236,905	364,127

- (1) Group liabilities on a Market Value and Lux GAAP basis are identical.
- (2) Lux GAAP technical provisions are net of subrogation and salvages.
- (3) ISRe Lux GAAP technical provisions include its equalisation provision.

C.7 Any Other Information

There is no other significant risk information to be disclosed.

Valuation for Solvency Purposes

In accordance with article 75 of Solvency II Directive 2009/138 and with article 9 of Delegated Regulation 2015/35, assets are valued for solvency purposes at the amount for which they could be exchanged between knowledgeable willing parties in an arm's length transaction, and liabilities are valued at the amount for which they could be transferred, or settled, between knowledgeable willing parties in an arm's length transaction.

Where this methodology differs from the valuation policies used in the Club's financial statements, a specific provision is made in the following section.

The Club's consolidated Solvency II balance sheet has been prepared in accordance with Method 1 (Accounting consolidation-based method) of article 230 of the Solvency II Directive 2009/138.

D.1 Assets

At 20 February 2023 (in USD '000):

Assets	Club consolidated			Club solo		ISRe	
	Solvency II	Market Value basis	Lux GAAP	Solvency II	Lux GAAP	Solvency II	Lux GAAP
Goodwill	-	2,780	2,780	-	-	-	-
Pension benefit surplus	2,031	-	-	4,410	-	-	-
Property, plant and equipment (1)	8,196	1,187	1,187	6,623	-	-	-
Investments (2)	684,671	684,675	655,800	313,369	185,937	361,168	347,298
Reinsurance Recoverables (3)	99,163	163,543	163,543	426,028	604,998	-	-
Insurance Receivables	19,091	48,650	48,650	19,091	48,650	-	-
Reinsurance Receivables	10,508	10,508	10,508	10,493	10,493	-	35,790
Other Receivables (4)	2,240	2,235	2,235	4,149	4,149	249	249
Cash	107,582	107,582	107,582	90,354	90,354	9,788	9,788
Deferred Acquisition costs	-	1,531	1,531	-	1,531	-	-
Other Assets	1,076	1,077	1,077	120	120	6	-
Total	934,558	1,023,768	994,893	874,637	946,232	371,211	393,125

- (1) Excludes properties not held for own use which are reported under investments.
- (2) Includes interest accrued on Fixed Income securities, loans, and unrealised gains on derivatives.
- (3) Net of subrogation and salvages.
- (4) Excludes unrealised gains on derivatives.

Pension Benefit Surplus

The pension benefit surplus has been valued by an independent actuary in accordance with IAS 19 which requires that the assets of the scheme are valued on a fair value basis and the liabilities of the scheme are recognised when the entity derives the benefit from the employees' service. The principal assumptions underlying the valuations above were:

- Discount rate 4.70%
- RPI inflation assumption 3.3%
- CPI inflation assumption (pre-2030) 2.3%
- CPI inflation assumption (from 2030 onward) 3.2%
- Limited price indexation pension increases 3.1%

The pension benefit surplus is not included in the Club's balance sheet in the financial statements as it is not required under Luxembourg GAAP ("Lux GAAP"). Due to its lack of fungibility, the value of the pension benefit surplus included in the Club's Solvency II balance sheet is capped at an amount equal to the contribution of the pension scheme assets and liabilities to the Club's solvency capital requirement ("SCR").

Leasing Arrangements

The Club occupies offices in several locations, under various operating lease agreements. These agreements have been entered into by several of the Club's subsidiaries.

Under IFRS 16, the present value of the operating lease agreements have been recognised in the Group Solvency II balance sheet, under "Property, plant & equipment held for own use" for the right to occupy office spaces, and under "Payables" for the related future payment obligation. There is no such recognition under Lux GAAP. Operational leases are measured at the present value of the future non-cancellable payments obligations resulting from the lease agreements.

Investments

Equities and bonds valuation (including investment funds) rely on market prices (including accrued interests when applicable) provided daily by the Club's administrative agent and financial data providers. Investments in collective investment undertakings rely on net asset values provided by financial data vendors, fund promoters, or fund administrative agents.

This valuation methodology is consistent with the Club's published accounts which are prepared on a market value basis but differs from its Luxembourg GAAP accounts where financial investments are valued at the lower of cost (historic for equities and collective investments undertakings, amortised for fixed income) or market value.

Property is stated at estimated market value, based on an annual valuation by an independent valuer. Likewise, this valuation methodology is consistent with the Club's published accounts which are prepared on a market value basis but differs from its Luxembourg GAAP accounts where property is stated at the lower of amortised historic cost or estimated market value. Under Luxembourg GAAP properties are amortised on a straight-line basis such that they are written down to their residual values over their useful economic lives.

Holdings in related undertakings are valued at their estimated market value. Depending on the local GAAP of related undertakings, the estimated market value is assessed as being the Solvency II excess of assets over liabilities, the local GAAP net equity (if assets and liabilities are valued at market value), or the local GAAP net equity retreated for market value.

Other loans and mortgages are valued at the present value of their future cash flows. Discounting is performed using EIOPA interest rate term structure, excluding volatility adjustment.

Insurance Recoverables

Amounts recoverable from reinsurance contracts take account of the time difference between recoveries and direct payments. The result from that calculation is adjusted to take account of expected losses due to default of the counterparty. That adjustment is based on an assessment of the probability of default of the counterparty and the average loss resulting therefrom (loss-given-default).

Insurance, Reinsurance Receivables & Other Receivables / Other Assets

Receivables and other assets are valued at their recoverable value. Full provision is made for balances considered to be doubtful. Lux GAAP Insurance Receivables which are not due at the reporting date are reclassified into the future premium cash-flows in the Solvency II Claims Provisions (as explained in section D.2).

Deferred Acquisition Costs

Deferred Acquisition Costs, representing acquisition cashflows already paid but related to unearned premium, are recognised as an asset under Lux GAAP but are not allowable under Solvency II.

Goodwill

Under Solvency II, insurance undertakings shall value goodwill at zero. Under Lux GAAP, the Club recognise goodwill at initial cost and amortise it on a straight-line basis at a rate of 20% per year commencing from the first full year after the acquisition.

D.2 Technical Provisions

At 20 February 2023 (in USD '000):

Group Liabilities	Club consolidated			Club solo		ISRe	
	Solvency II	Market Value basis (1)	Lux GAAP (2)	Solvency II	Lux GAAP (2)	Solvency II	Lux GAAP (3)
Technical Provisions	573,864	738,053	738,053	553,856	738,053	236,905	364,127
Best Estimate	534,711	n/a	n/a	533,100	n/a	217,451	n/a
Risk Margin	39,152	n/a	n/a	20,755	n/a	19,454	n/a

(1) Group liabilities on a Market Value and Lux GAAP basis are identical.

(2) Lux GAAP technical provisions are net of subrogation and salvages.

(3) ISRe Lux GAAP technical provisions include its equalisation provision.

The Solvency II technical provisions are equal to the sum of the Best Estimate and Risk Margin.

The Best Estimate corresponds to the probability-weighted average of future cash-flows, taking account of the time value of money (expected present value of future cash-flows), using the relevant risk-free interest rate term structure (specified by EIOPA, with no use of the volatility adjustment). The cash-flow projection used in the calculation of the Best Estimate takes account of all the cash in- and out-flows required to settle the insurance and reinsurance obligations over the lifetime thereof. This includes all expenses that will be incurred in servicing insurance and reinsurance obligations, and all payments to policy holders and beneficiaries which the Club expects to make. The Best Estimate is calculated gross, with the amounts recoverable from reinsurance contracts projected separately.

The Risk Margin is such as to ensure that the value of the technical provisions is equivalent to the amount that insurance undertakings would be expected to require in order to take over and meet the corresponding insurance obligations. The Risk Margin is calculated by determining the cost of providing an amount of eligible

own funds equal to the Solvency Capital Requirement necessary to support the insurance obligations over the lifetime thereof. For that purpose, the Club used the 6% capital cost as prescribed by EIOPA.

Claims Provisions

The best estimate claims provisions are calculated using standard actuarial techniques. The claims projection is performed on separate homogenous groups, with Members' attritional claims, Members' large claims and the Club's share of other clubs' pool claims all projected separately. Members' large claims (net of pool) are projected individually with the relevant club reinsurance programmes applied. The claims provision includes an explicit provision for future claims handling expenses.

Premium Provisions

The Club writes the vast majority of its business on an annual basis from noon GMT, 20th February to 20th February each year, however there is a small amount of unearned business written on a 'cross-policy year' basis, i.e. incepting before the 20th of February. At the 20th February the majority of the next year's premium is bound but not incepted, as a result premium provision for the bound but not incepted business and small amount of unearned premium is held. The premium provision is the net expected claims and expense cost for unearned bound business less the net future premium.

Difference between Solvency II and Luxembourg GAAP

The valuation rules for the technical provisions under Solvency II differ from those under Luxembourg GAAP. The value of technical provisions, under Solvency II, is equal to the sum of the best estimate and the risk margin. The best estimate is based on discounted cash flows. Under Luxembourg GAAP reserves are calculated on an undiscounted basis and there is no requirement for them to be held on a best estimate basis, as a result the Luxembourg GAAP reserves include an element of prudence in line with the risk appetite set by the Club's Board (but no explicit risk margin). There is also no premium provision held for bound but not incepted business under Luxembourg GAAP.

In addition, future premium cash-flows earned within the contract boundaries at the valuation date and which fall due after the valuation date are included in the Solvency II Claims Provisions. Under Luxembourg GAAP, these future premium cash flows are disclosed as Member Debtors and Reinsurance Creditors.

Material Changes

There have been two material changes to the calculation of technical provisions compared to the prior year. The Solvency II expense calculation has been improved and the counterparty default adjustment is now calculated using the simplified approach set out in Article 61 of EU/2015/35.

D.3 Other Liabilities

At 20 February 2023 (in USD '000):

Other Liabilities	Club consolidated			Club solo		ISRe	
	Solvency II	Market Value basis	Lux GAAP	Solvency II	Lux GAAP	Solvency II	Lux GAAP
Deferred Tax Liabilities	26,264	-	-	-	-	26,264	-
Insurance, Reinsurance & Other Payables	55,510	54,963	54,963	49,279	89,402	1,652	1,654
Total Other Liabilities	81,774	54,963	54,963	49,279	89,402	27,916	1,654

Deferred Tax Liabilities

Deferred tax liabilities represent differences in timing between when the tax is recognised in the Club's financial statements relative to when the tax is effective via the tax law of the various jurisdictions in which the Club operates. Whilst the Club does not recognise any deferred tax in its Luxembourg GAAP accounts, the valuation adjustments for Solvency II purposes leads to accounting for future taxation, primarily on the equalisation provision of the Club's Luxembourg reinsurance captive, ISRe.

Deferred tax liabilities are valued at the current tax rate in the applicable jurisdiction.

Reinsurance Payables

The Lux GAAP Reinsurance Creditors which are not due at the reporting date are reclassified into the future premium cash-flows in the Solvency II Claims Provisions (as explained in section D.2).

D.4 Alternative Methods for Valuation

The Club and its subsidiary ISRe do not make use of alternative methods for valuation.

D.5 Any Other Information

There is no other significant valuation information to be disclosed.

Capital Management

The Club has a Medium-Term Capital Management Plan to ensure that the group and its subsidiaries will be able to meet their regulatory and internal capital requirements on a 3-year rolling horizon.

The purpose of the Capital Management Plan is to ensure that, on a forward-looking basis, own funds will be sufficient to provide a buffer against adverse scenarios. It is consistent with the Business Planning process which is a projection of the premiums, claims, general expenses and investment return.

The Medium-Term Capital Management Plan of the Club is a key component of its ORSA and is reviewed at least annually by the Board.

E.1 Own Funds

At 20 February 2023, the Club's own funds and its subsidiary, ISRe's under Solvency II (USD '000) were:

Own Fund Item	Tier	Club Consolidated	Club Solo	ISRe
Ordinary Share Capital	1	-	-	25,000
Reconciliation Reserve	1	275,860	271,502	81,389
Ancillary Own Funds	2	274,292	274,292	85,000
Total		550,152	545,794	191,389
Eligible to cover SCR		385,147	340,451	154,603
Eligible to cover MCR		275,860	271,502	106,389

E.1.1 Club Consolidated

The Club does not have share capital and does not issue debt. Its Free Reserve is attributable to its Members. The reconciliation reserve mainly consists of profits carried forward since the inception of the Club. It also includes the group pension scheme surplus valued in accordance with section D.1 of this report.

Ancillary Own Funds

(Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

Ancillary own funds are funds which are contingent in that they have not been paid in, and as such, are not recognised on the balance sheet of the insurance undertaking. If at some undetermined point in the future ancillary own funds are called, then they cease to be contingent and become basic own funds items represented by assets on the balance sheet. One critical feature of ancillary own funds is their loss-absorbency.

Under articles 93 and 94 of Solvency II Directive 2009/138, supplemented by articles COF1, 2, 5 and 6, of the Level 2 Implementing Measures and the Technical Specification for the Preparatory Phase (Part I) document, ancillary own funds include any future charge which mutual or mutual-type Clubs of shipowners with variable contributions may have against their Members by way of an unbudgeted supplementary premium contribution known as a "supplementary call" in the case of this Club.

The Club has the right under its rules to charge supplementary calls to its Members. These calls fall within the definition of ancillary own funds described above.

The total amount of Ancillary Own Funds included within the Club's own funds is based upon the methodology approved by the CAA in July 2020. The amount of Tier 2 capital is equivalent to 115% of the Total Estimated Mutual Call. The extent to which the value of the approved ancillary own funds in relation to

supplementary calls is eligible to meet the Solvency Capital Requirement is however limited by the Tier 2 regulatory threshold which is currently a maximum of 50% of the SCR.

The methodology approved by the CAA remained valid until 20 April 2023 and was thereafter renewed on the same basis.

Non-Available Own Funds (Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

Based on article 330 of Delegated Regulation 2015/35, the Club recognise the restriction on part of its own funds held in its reinsurance captive “Hydra Insurance Company Ltd. – The West of England Hydra Cell” which cannot be made available to cover the group Solvency Capital Requirement.

If applicable, the reduction in available capital at group level due to this restriction is reported under QRT S.23.01.04 – R0750.

E.1.2 Club Solo

The Club does not have share capital and does not issue debt. Its Free Reserve is attributable to its Members. The reconciliation reserve mainly corresponds to profits carried forward since the inception of the Club. Although less material, it also includes the surplus of the group pension scheme valued in accordance with section D.1 of this report.

Ancillary Own Funds (Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

The method used by the Club Solo to determine its amount of eligible Tier 2 capital is the same as that described for the Club on a consolidated basis and is equivalent to 115% of the Total Estimated Mutual Call. The cap, which is set at 50% of the SCR, explains the difference with the amount of ancillary own funds eligible to cover the SCR at the consolidated level.

Non-Available Own Funds (Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

There are no non-available own funds to report.

E.1.3 ISRe

ISRe’s Tier 1 capital is composed by its share capital issued, fully held by the Club, and by its reconciliation reserve which corresponds to profits carried forward.

Ancillary Own Funds (Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

The total amount of Ancillary Own Funds included within ISRe’s own funds is based upon a methodology approved by the CAA in May 2021. ISRe and the Association entered into a Guarantee Agreement in April 2021 whereby the Association (ISRe’s sole shareholder) undertakes to pay any capital increase requested by ISRe up to a maximum amount of USD 85 million. In accordance with articles 25 and 26 of the CAA Règlement 15/03, this amount of USD 85 million is recognised as Ancillary Own Funds. The extent to which the value of the approved ancillary own funds in relation to this guarantee agreement is eligible to meet the Solvency Capital Requirement is limited by the Tier 2 regulatory threshold which is currently a maximum of 50% of the SCR.

The methodology approved by the CAA remain valid until 20 February 2026.

Non-Available Own Funds (Guideline 12 of the EIOPA Guidelines on Reporting & Disclosure)

There are no non-available own funds to report.

E.1.4 Reconciliation Between Free Reserve Per Financial Statements and Solvency II Excess of Assets Over Liabilities

At 20 February 2023 the reconciliation between Free Reserves in the financial statements and Solvency II Excess of Capital over Liabilities is (USD '000):

Own Fund Item	Club Consolidated	Club Solo	ISRe
Financial Statements Free Reserves	201,877	118,777	27,344
Change in valuation in:			
• Goodwill	(2,780)	-	-
• Deferred Acquisition Costs	(1,531)	(1,531)	-
• Pension benefit Surplus / Deficit	2,031	4,410	-
• Property, plant & equipment held for own use	7,009	6,623	-
• Investments	28,876	127,431	13,877
• Reinsurance Recoverables (1)	(64,380)	(178,970)	-
• Insurance / Reinsurance Receivables	(29,559)	(29,559)	(35,790)
• Technical Provisions (1)	164,188	184,197	127,222
• Deferred Tax Liabilities	(26,264)	-	(26,264)
• Reinsurance Payables	6,461	46,746	-
• Payables	(7,008)	(6,622)	-
Solvency II Excess of Assets over Liabilities	278,920	271,502	106,389

(1) Net of subrogation and salvages and including Lux GAAP equalisation provision for ISRe

E.2 Solvency Capital Requirement and Minimum Capital Requirement

The SCRs of the Club (consolidated and solo) and ISRe are based on the Solvency II standard formula and do not make use of simplified calculations nor duration-based equity risk assessment.

The Club has always complied with all solvency regulatory requirements during the period under review.

The breakdown of the Club's capital requirement is shown in the following table (USD' 000):

Item	Club Consolidated	Club Solo	ISRe
Market Risk	68,677	61,835	39,657
Counterparty Default Risk	14,745	47,438	7,767
Underwriting Non-Life Risk	193,426	54,927	95,281
Basic SCR	228,797	121,907	116,168
Operational Risk	16,041	15,993	6,524
Adjustment for Deferred Tax	(26,264)	-	(26,264)
SCR	218,574	137,900	96,427
Eligible Own Funds to cover SCR	385,147	340,451	154,603
Solvency ratio	176%	247%	160%

Minimum Capital Requirement	90,486	34,475	38,873
Eligible Own Funds to cover MCR	275,860	271,502	106,389
Minimum Solvency ratio	305%	788%	274%

Impact of Transitional Measures

The Club (both on a consolidated and solo basis) and ISRe are not making use of transitional measures.

E.3 Use of The Duration-Based Equity Risk Sub-Module in The Calculation of The Solvency Capital Requirement

The Club and its subsidiary ISRe did not use the duration-based equity risk sub-module in the calculation of the Solvency Capital Requirement.

E.4 Differences Between the Standard Formula and Any Internal Model Used

The Club and its subsidiary ISRe only use the Standard Formula when calculating their Solvency Capital Requirements.

E.5 Non-Compliance with The Minimum Capital Requirement and Non-Compliance with The Solvency Capital Requirement

The Club (both on a consolidated and solo basis) and ISRe have always complied during the year with their respective Minimum Capital Requirements and their Solvency Capital Requirements.
