

## New THINK! Loss Prevention Safety Posters Published

2nd August 2016

A further four posters have been added to the Club's popular **THINK!** series of Loss Prevention safety posters, raising awareness of some of the common causes of shipboard accidents.

The sixth set of posters in the series covers the following topics:

When lifting heavy items, the correct procedure and posture should be used at all times to avoid injury

Sufficient rest is important for a seafarer's health and wellbeing, and the avoidance of fatigue related incidents

A hard hat should be worn at all times when there is risk of injury from falling/flying objects or fixed structures around head height

Taking shortcuts to save time can lead to serious incidents. Procedures and best practice should be followed at all times

To assist Members with Chinese crews, the four new posters have also been produced in Chinese.

Members will be sent complimentary sets of all four posters for their vessels. Further hard copies in English may be obtained by contacting the [Loss Prevention department](#) in London, or downloaded as PDF files from the Club's [website](#). Additional hard copies in Chinese are available from the [Loss Prevention department](#) in Hong Kong, and can also be downloaded as PDF files from the Club's [website](#).
